REQUEST FOR APPLICATIONS

2023 Urban and Community Forestry Grants Program

Round 16

Application Deadlines

- UCF1 – Tree Inventory and/or Management Plan: 2:00pm, Wednesday, **June 21, 2023**
- UCF2 – Tree Planting OR Tree Maintenance: 2:00pm, Wednesday, **August 16, 2023**

NYS Grants Gateway Opportunity IDs

- DEC01-UCF1-2023: Tree Inventory and/or Community Forest Management Plan
- DEC01-UCF2-2023: Tree Planting OR Tree Maintenance

Available NYS Grants Gateway Training Webinar Information:

Topic: NYS DEC Urban Forestry 2023 Application Webinar
Date: Thursday, May 4, 2023
Time: **10:00 AM, estimated 2 hours**

To join the online meeting (Now from mobile devices!)

1. Go to <https://meetny.webex.com/meetny/j.php?MTID=m8632d7da909b7fed96091732ef0a1b48>
2. If requested, enter your name and email address.
3. If a password is required, enter the meeting password:
4. Click "Join".
5. After you join the webinar, you will see a button to join the audio conference from your phone.

NOTE: The phone conference may be muted when you join, and you may not hear any sounds until the presenter begins at 10:00am.
For assistance: please contact the Grants Gateway help desk at grantsgateway@its.ny.gov or 518-474-5595

I. General Information

The Department of Environmental Conservation (DEC) Division of Lands and Forests is pleased to announce available Environmental Protection Fund (EPF) funding for Urban and Community Forestry (UCF) grants.

These 2-year grants are meant to help start, plan and advance strong, self-sustainable UCF programs which enhance the quality of life for all New Yorkers. Grant projects must implement tree inventory, community forest management plan, tree planting or tree maintenance projects for urban and community forests in New York State. "Urban and community forest" for the purpose of this grant encompasses developed areas with street trees and maintained parks. This Request for Applications (RFA) is intended to help applicants develop a successful and detailed application. Please read this RFA carefully and in its entirety.

1. Timetable of Key Events

• Friday, April 28, 2023	Application Period Begins
• Thursday, May 4, 2023	Grants Gateway Training Webinar and Program Informational Session (details on front page)
• Tuesday, June 13, 2023	Question and Answer Period Ends
• Wednesday, June 21, 2023 2pm	Application Deadline for UCF1-Tree Inventory, Community Forest Management Plan (CFMP) projects
• October 2023	Award(s) Announced (anticipated) for Tree Inventory and CFMP projects
• Wednesday, August 16, 2023 2pm	Application Deadline for UCF2-Tree Planting, Tree Maintenance projects
• December 2023	Award(s) Announced (anticipated) for Tree Planting and Tree Maintenance projects

2. Round 16 Funding

- Approximately \$3,000,000 in total is available for the UCF Grant (Round 16), approximately \$1,500,000 for UCF1 and approximately \$1,500,000 for UCF2. Should newly-appropriated funding become available, DEC may award additional applications received in this round.
- Funding for this grant opportunity is provided from the New York State Environmental Protection Fund.
- Applicants should request the amount of funding they can show is appropriate and reasonable for their project and supported in their application.
 - The minimum for all requests is \$10,000.
 - **Large Community Grants:** Applicants may request up to \$100,000.
 - **Small Community Grants:** Applicants may request a up to \$75,000.
- "Large Community" for the purposes of this grant includes all cities, towns, and villages with a population of 65,000 or more. See Appendix 1 for the list of Large Communities.
- For applicants other than cities, towns and villages, the size of the maximum grant amount allowed is determined by the size of the community in which the project will take place.
- At least \$1,000,000 will be awarded to applications in Large Communities.
- This is a reimbursement grant program. Awardees must submit reimbursement requests after the work is complete and contractors have been paid.

3. Inquiries and Contact Information

Grants Gateway

New York State's (NYS) Grants Management website allows the public to find, apply for and manage NYS grants. The following resources provide instructions on registering, pre-qualification, submitting an application, etc., in Grants Gateway.

- **Grants Management website:** <https://grantsmanagement.ny.gov/>. Use this to search for a grant opportunity and access the Grants Gateway.
- **Grants Gateway User Manual:** (<https://grantsmanagement.ny.gov/system/files/documents/2020/05/vendor-user-manual-3.2-5.7.20.pdf>) provides instructions in one PDF document.
- **Get pre-qualified webpage:** <https://grantsmanagement.ny.gov/get-prequalified>
- **Grants Gateway Login webpage:** https://grantsgateway.ny.gov/IntelliGrants_NYSGG/login2.aspx. Applicants must login in order to open an application.
- Grants Gateway navigation and tips specific to this opportunity can also be found in Section IV – Grants Gateway Instructions in this RFA.

If you need additional assistance with the Grants Gateway, contact the Grants Management Team by email: grantsgateway@its.ny.gov.

Department of Environmental Conservation

For general information on completing this application and for clarification of application requirements, contractual terms and procedures:

- **DEC regional urban foresters** (Appendix 3) are available to talk to you about your project throughout the entire open grant period. All applicants should discuss their project with their regional urban forester early in the planning process.
- **DEC's Urban and Community Forestry Program staff in Albany** can answer questions about this grant opportunity in a Questions and Answers (Q&A) document posted in the Grants Gateway Opportunities area for all applicants to view. Send questions to urbanforestry@dec.ny.gov. Include "UCF" in the subject line of the email. Questions and answers will be periodically updated with questions received through June 6, 2023.

4. Application Submission

- Each applicant may submit one (1) application.
- Applications and all supporting material must be submitted through the [NYS Grants Gateway \(https://grantsgateway.ny.gov/\)](https://grantsgateway.ny.gov/). Paper applications will NOT be accepted.
- All required and optional accompanying documents must be uploaded in the Pre-Submission Uploads section of the application. Only one PDF per item can be uploaded. Uploading a second file will overwrite the first. Maximum file size is 10MB.
- Applicants are encouraged to finish the online application at least one week prior to the deadline. This allows the applicant time to double check that all mandatory requirements have been completed and to correct any technical errors.
- Applicants are strongly encouraged to submit their applications well in advance of the application deadline. In the event of a tie and not enough funds, the application submitted first will be funded.
- Not-for-profit organizations (NFP) must complete a prequalification process. The state reserves five business days to review submitted prequalification applications (not the same as grant applications). Not-for-profit organizations must be prequalified for their grant application to be reviewed.
- See Section V. Grants Gateway Instructions – Submitting an Application for which grantee roles are recommended to submit an application in Grants Gateway.

5. Eligible Applicants

For the purposes of this grant program, the following entities are considered eligible applicants:

- a. New York State government entities, municipalities, and quasi-governmental entities including, but not limited to, counties, cities, towns, villages, or public benefit corporations, public authorities, municipal corporations, soil and water conservation districts, and community colleges.
- b. Indian nations or tribes recognized by the State or the United States with a reservation wholly or partly within the boundaries of New York State, or any combination thereof.
- c. 501(c)(3) not-for-profit (NFP) corporations whose projects are located within the eligible geographic boundaries defined in this Request for Applications (RFA). NFP applicants must possess the knowledge, skills, and/or track record to successfully implement the project.

Not-For-Profit (NFP) Prequalification

New York State has instituted key reform initiatives to the grant contract process which require NFPs to register in the Grants Gateway and complete the Vendor Prequalification process for applications to be evaluated. See I.3. Inquiries and Contact Information, above, for links to Prequalification and other Grants Gateway resources.

The Grants Management website details the requirements, and an online tutorial is available to further explain the process. Follow the instructions under the “Get Started” menu to register your organization and get pre-qualified. **Contact the Grants Management Team for additional assistance: Email grantsgateway@its.ny.gov.**

Once you are Prequalified, please check the status of your document vault on a regular basis to ensure that none of your documents are expired. **Expired documents will lead to the loss of Prequalification status.**

Note: Individuals and unincorporated groups may not apply, but an eligible not-for-profit organization, known as a fiscal sponsor, may apply on behalf of an individual or unincorporated group.

Note: Inter-municipal collaboration such as shared services and equipment is encouraged. In these situations, one municipality must be designated as the applicant and assume responsibility for the project application and performance of work consistent with this RFA and State of New York Master Contract for Grants.

6. Eligible Project Locations

Projects must be implemented in New York State and on non-state-owned properties (municipal public property, i.e. street and park trees), privately owned parkland that is open to the public (e.g. cemeteries) or alongside a state-owned roadway in a city, town, or village in a location where they provide a public benefit. Projects may be implemented further from a public roadway if within 10 feet either side of a paved or maintained multiple use trail. Schools with trees: trees on school property may be included in municipal applications if the property is owned by the municipality or if there is a written agreement that asserts the municipality manages the trees. Upload the agreement. Applicants must include a clear map of the project area in this application.

Any work conducted by a municipality on private property, other than parklands providing public access, must be no more than ten feet beyond the municipal right-of-way. Beyond the municipal right-of-way refers to privately-owned lands that are adjacent to public lands. State law authorizes the use of public resources on private property if a public benefit is primarily served by that expenditure. Work may occur on property beyond the right-of-way to benefit the general public even though private parties would receive an incidental benefit. The local municipality must enact a local law authorizing work beyond the right-of-way. Such laws typically identify specific types of work that can be conducted beyond the right-of-way and establish ground rules to govern such work.

The following project areas are not eligible in this grant:

- a. Woodlands or unmaintained park areas with or without recreational trails
- b. College and university campuses whose property (and trees) is not managed or owned by a municipality
- c. Private property other than what is noted as eligible

7. Match Requirement

Match is the portion of project expenditures not paid for with grant funds. Match funds are not required for Tree Inventory and Community Forest Management Plan projects.

Applicants must match twenty-five percent (25%) of the requested amount of grant funding for Planting and Maintenance projects. For example, a \$50,000 grant would require \$12,500 in match for a total project cost of \$62,500; with \$50,000 funded by grant. Eligible sources of match funds cannot come from other NYS or federal funding sources. Applicants will be required to provide the sources of all matching funds using the Match Worksheet in Grants Gateway.

Match can be from local and/or in-kind contributions. Local sources can include funding from other non-state and/or non-federal grant sources or from project partners. In-kind contributions are non-cash donations provided by non-state and/or non-federal third parties which can include equipment, supplies, services, staff time, volunteer time, and other expendable property. Matching share contributions must support the objectives outlined in the work plan.

Match in excess of 25% may be added for the applicant's own budget planning but it does not need to be accounted for or reported on for reimbursement. Applicants will be required to provide the sources of all matching funds using the Match Worksheet in the Grants Gateway.

8. Estimates

Estimates are important for the applicant to understand the cost of the project and request a reasonable grant amount. At least one estimate (or "quick quote") on company letterhead is required as part of the application process. When soliciting estimates, the scope of work should be in line with Urban and Community Forestry (UCF) grant program guidelines and quotes should be based on the same information so you can compare equally. For secondary or smaller items in the budget (excluding salary and fringe), please upload estimates for any individual item or service over \$1,000. If the municipality will be doing the work, the cost of that work by staff can be included as a quote.

9. Debriefing Request

In accordance with section 163 of the State Finance Law, the Department of Environmental Conservation must, upon request, provide a debriefing to any unsuccessful offeror that responded to the Program Overview, regarding the reasons that the proposal or bid submitted by the unsuccessful offeror was not selected for an award. An unsuccessful offeror wanting a debriefing must request a debriefing in writing, within fifteen calendar days of receipt of the notice that their proposal did not result in an award to Urban Forestry, DEC Albany: urbanforestry@dec.ny.gov.

DEC does not have a formal protest procedure, therefore an applicant may file an initial protest with OSC's Bureau of Contracts (BOC) after the Department has made a contract award. The protest must be in writing and filed with BOC within ten business days of notice of the contract award or if a debriefing has been requested by the interested party, within five business days of the debriefing (whichever is later). If the interested party is not provided with notice of the contract award, the interested party may file a protest with BOC at any time after the contract award and prior to the Comptroller's final action on the contract.

Formal protests concerning a pending contract award must be received within five (5) business days after the protesting party knows or should have known of the facts that constitute the basis of the formal protest.

The protest must be filed with:

Bureau Director
at bidprotests@osc.ny.gov or
Bureau of Contracts
New York State Office of the State Comptroller
110 State Street, 11th Floor
Albany, NY 12236.

10. Department of Environmental Conservation Oversight

The Department of Environmental Conservation reserves the right to:

- Award additional and available funding for scored and ranked projects consistent with these grant opportunities.
- Make an award, in whole or in part, in accordance with the method of award, or withdraw the RFA at any time at the DEC's sole discretion.
- Award a portion of a grant request based on the proposed work plan included in the application and ineligible project-related costs.
- Award the next highest scoring application in the event a grantee fails to negotiate a grant contract with the DEC within 60 days of a grant award.
- Monitor the progress of all grant awards and withdraw grant funding if the grantee fails to make significant and timely progress on the project or fails to receive the necessary permissions and permits for the project.
- Disqualify any applicant whose conduct and/or proposal fails to conform to the requirements of the RFA.
- Not fund projects that are determined to be inconsistent with NYS's Smart Growth Public Infrastructure Policy Act.
- Not fund projects that are determined to be inconsistent with the Climate Leadership and Community Protection Act or its implementing regulations.
- Seek clarification from an applicant to effectively evaluate a project proposal.
- Reject any or all applications in response to the RFA at the DEC's sole discretion.
- Withhold funding from projects that do not receive a minimum score of 50 percent of the total points.
- Disqualify any applicant who has demonstrated poor past conduct or performance with DEC, including but not limited to incomplete Urban Forestry Grants, lack of quarterly progress reports, multiple contract extensions, or failure to implement all promised deliverables.

II. Project Types

UCF applications must be for one of the following project types ("opportunities" in Grants Gateway):

- UCF1 – Tree Inventory and/or Community Forest Management Plan
- UCF2 – Tree Planting OR Tree Maintenance

1. Tree Inventory – UCF1

Only Tree Inventory and Community Forest Management Plan projects are allowed and recommended to be combined in one application.

The goal of inventory projects is to get a picture of the size, species, health, geographic distribution and maintenance needs of the urban forest. A complete inventory (on public property, i.e. street and park trees, managed by the applicant or municipality) provides information for individualized tree care, including risk tree identification. Level II risk tree assessment is included in most tree inventories. Applicants/communities are eligible to apply for a Tree Inventory if the DEC UCF program has not funded one for the same location in the last 8 years. Awardees are required to:

- Hire/use an ISA certified arborist (or ISA arborist-supervised company) to conduct the inventory. An exception may be granted by the DEC UCF Program if requested prior to application submission and organization/individual to conduct the inventory has proven experience in conducting professional tree inventories. Check local listings or the International Society of Arboriculture (ISA) website for certified arborist companies in your area for quotes.
- Collect data in a computerized software program that will allow for an i-Tree ECO benefits analysis (pollution removal, carbon storage, hydrology effects, ultraviolet (UV) effects, etc.).
- All tree inventories must be ground-truthed. Aerial assessment may be used in conjunction with ground truthing.
- Upon completion of the project, an electronic copy of the final tree inventory must be submitted by the awardee in a format compatible with Microsoft Office Excel or Access, and in a GIS shape file formatted as per awardee guidelines, to the DEC grant administrator via email and should be listed as one of the tasks and related performance measures in the application work plan.
- Wait until the inventory is complete before writing the management plan, if the management plan is part of the project.
- The minimum accuracy rate is 95%. Your local DEC urban forester will inspect and approve the inventory prior to final reimbursement. Discuss expectations with your local DEC urban forester.
- Explain how the inventory will be updated and maintained, including software, in the long-term support question.

Completed tree inventories must include the following information:

- Column headings and description of column content
- Measurement of tree DBH (diameter at breast height) in inches
- Tree species – genus, species AND common names
- Street address location
- GPS coordinates
- Location and size of empty and/or potential tree planting sites
- Location of stumps
- Crown condition and/or percentage of crown dieback (excellent to dead rating)
- Maintenance recommendation (prune, train, remove, etc.)
- I-Tree ECO benefits analysis report.

Optional:

- Level III risk tree assessment – evaluation/further inspection of specific risk trees 6" DBH or larger - Some trees identified in a Level II assessment may warrant a Level III assessment, which requires more tools and consultant time, and is more expensive, but won't be known until the initial inventory is initiated. If funds allow, approval may be requested from the grants administrator for a Level III assessment of specific trees. To be eligible to apply for a Level III risk assessment, applicant must have completed a tree inventory within the past five years that included Level II risk assessment. Also, for Level III risk assessment, a Tree Risk Assessment Qualified (TRAQ) certified arborist must be contracted and on the crew. For more information on tree risk assessment certification read the ISA website (<https://www.isa-arbor.com/Credentials/ISA-Tree-Risk-Assessment-Qualification>).
- Asset Management System – applicants must keep tree inventories updated in a way that fits the capabilities of the field staff and makes financial sense long-term. Small inventories can be maintained in a Microsoft Excel spreadsheet. If local asset management software is available and can add trees as a layer, specialized software will not be funded. Otherwise, funding of leased software may be

considered for up to three years, and applicant should explain how they will cover the cost beyond grant funding.

2. Community Forest Management Plan- UCF1

Only Tree Inventory and Community Forest Management Plan (CFMP) projects are allowed and recommended to be combined in one application. A professional Tree Inventory is a prerequisite or corequisite for a CFMP project.

The CFMP is based on tree inventory data and documents the steps necessary to elevate the community forestry program to a self-sustaining level that will expand its long-term benefits and assure they are available to all residents. This CFMP will provide a record and understanding of what currently exists while managing the future goals of the community. Applicants/communities are eligible to apply for a CFMP if the DEC UCF program has not funded a management plan for the same location in the last 8 years.

Applications should include an explanation of how this plan will be incorporated in all aspects of future planning in the community, such as infrastructure, development, revitalization, recreation, transportation and storm preparedness.

The CFMP should be itemized separately from the inventory in the budget, and as one of the tasks and performance measures in the application work plan. Upon completion of the project, an electronic copy of the completed management plan must be submitted to the DEC grant administrator via email.

Completed Management Plans must include the following information and be customized to each community:

- A vision, goals and objectives for the long-term community forest and a strategy for how to care for the community trees.
- The use of the tree inventory which identifies management needs i.e. pruning rotations, removal implementation, and prioritization of workload.
- The development of budgets and work plans, including timelines and tasks, to meet the vision.
- An i-Tree ECO benefits analysis of environmental issues such as: pollution removal, carbon storage, hydrology effects, ultraviolet effects, etc.
- Basic in-house training/meeting of responsible staff by the contracted consultant that will provide guidance to all those involved with ongoing maintenance of the Tree Inventory, and implementation of the Management Plan. Follow up by consultant in the second or third year is also available to ensure positive long-term support.

Recommended

- Designation and description of activities by a potential new or existing community tree board that includes volunteers.

Optional Additional Plans

Must be individualized to the geographic project area and for the awardee:

- Operational plan based on the community's current budget which includes budget strategies to help build capacity and move awardee toward being able to complete the work in the CFMP.
- Storm preparedness and response planning
- Planting plan to address the unique characteristics of the project location, such as: species diversity, understory plantings, erosion control, and brownfields that could be impacted with planting and would address local needs
- Waste wood utilization plan to reduce disposal costs.

Note: Consultants offer additional plans and services that are not covered by the DEC UCF grant program but may be purchased directly by the community.

3. Tree Planting – UCF2

The goal of the planting project is to increase long-term tree canopy by using best management practices for proper site/tree selection, site preparation, planting and young tree care.

- Plantings should be supervised by professionals (trained DPW staff, ISA certified Arborist, Nursery and Landscape professional, or other appropriate professional) according to Appendix 2. Recommended Minimum Standards for NYS DEC Tree Planting Projects.
- Planting applications must include a 5-year planting and maintenance plan to ensure trees are planted correctly and that the plantings will be successful in the long-term (e.g. right tree/right place, inspection of roots and trees on receipt, planting depth, regular inspections, watering, structural pruning, stake removal, etc.).
- Applicants must use only non-invasive species, ([view the invasive species list, http://www.dec.ny.gov/docs/lands_forests_pdf/islist.pdf](http://www.dec.ny.gov/docs/lands_forests_pdf/islist.pdf)).
- Any questions regarding tree planting standards or appropriate professionals for tree list approval should be directed to the urban forester in your DEC Regional Office (see Appendix 3).
- If volunteers are participating in tree planting, they must be provided training.
- Trees may be removed in order to facilitate planting as part of this project, but removal may not be more than 20% of the total grant amount. Do not include removal or maintenance in the project title.
- Tree planting projects require a minimum survival rate of 95% at the time of DEC forester inspection prior to final reimbursement.
- A 1-year warranty for trees/plantings by contractors is recommended .

Tree Planting project applications must include the following in addition to other eligibility requirements in order to pass Application Eligibility:

- Number of trees to be planted
- Details of materials to be purchased such as soil, structural soil, mulch, stakes, ties, guards and related tree-friendly materials. Pervious paving if deemed necessary for tree survival.
- Photos to show a sample of potential planting sites
- Provide an appropriate list of tree species for the project developed from resources such as listed below, and approved by a DEC urban forester, ISA arborist, landscape architect, Cornell Coop Extension Educator, or from a current (updated or used in the last 5 years) community forest management plan developed by a certified arborist. Explain who approved the list or upload their email showing approval:
 - [Native flowers for gardening and landscaping from DEC](http://www.dec.ny.gov/docs/lands_forests_pdf/factnatives.pdf)
(http://www.dec.ny.gov/docs/lands_forests_pdf/factnatives.pdf)
 - [Recommended urban trees from Urban Horticulture Institute at Cornell University](http://www.hort.cornell.edu/uhi/outreach/recurbtree/index.htm)
(<http://www.hort.cornell.edu/uhi/outreach/recurbtree/index.htm>)
 - [Best Tree Finder: Tree Wizard from Arbor Day Foundation](https://www.arborday.org/shopping/trees/treewizard/intro.cfm)
(<https://www.arborday.org/shopping/trees/treewizard/intro.cfm>)
 - [Tree selection for urban and suburban landscapes, U of Florida](https://hort.ifas.ufl.edu/woody/selection.shtml)
(<https://hort.ifas.ufl.edu/woody/selection.shtml>)
 - Applicants must use only non-invasive species, (view the invasive species list, http://www.dec.ny.gov/docs/lands_forests_pdf/islist.pdf).

4. Tree Maintenance – UCF2

A professional Tree Inventory that is at least 95% accurate, contains ranked maintenance recommendations, and completed within the last 8 years and actively maintained is a prerequisite for a Tree Maintenance project.

The purpose of the Tree Maintenance project is to improve the health of the existing community forest for resiliency, long-term benefits and to reduce potential risk and liability.

- Examples of maintenance projects include:
 - a) Tree removal or pruning, including stump removal. Invasive plant control, including removing and chipping, may be a portion but not more than 30% of the project.
 - b) Young tree care, including pruning, watering, adding tree guards, etc.
- All pruning must be done or supervised by an ISA Certified Arborist.
- All projects should use staff or contractors professionally trained in best management practices for tree maintenance according to the International Society of Arboriculture.
- Priority should be given to highest priority trees and work identified in the tree inventory and management plan.
- Trees may be planted, following Recommended Minimum Standards for NYS DEC Tree Planting Projects, in priority areas where trees were removed (e.g. in front of a school) as part of this project but may not be more than 20% of the total grant amount. Do not include planting in the project title.

Tree Maintenance project applications must include the following in addition to other eligibility requirements in order to pass Application Eligibility:

- Upload a copy of your complete tree inventory or the portion of the inventory that covers the project.
- Project location (park or street names and map)
- Ground-level photos that show a sample of trees to be maintained and show need

III. Eligibility of Budget Costs

1. UCF Ineligible Costs

The following costs are **not eligible** for reimbursement or for match for any of the UCF grant opportunities.

- Indirect/Overhead: Costs including accounting fees, insurance, interest, legal fees, rent, repairs, telephone bills, space/property, and utilities; contingencies.
- Salary not devoted to the project: sick, vacation, personal time, etc.
- Travel: Staff and/or contractor travel between the home location and the project site.
- Application preparation: Costs associated with preparing the grant application.
- Outside contract term: Costs incurred prior to an award or prior to a contract start date or after the contract end date. A contract term (start and end date) will be determined by DEC at the time of an official award.
- Other state or federal funding: Costs paid from other state or federal funding sources are not eligible for reimbursement.
- Equipment: drones
- Non-tree Plants: Shrubs, vines, perennials, and annuals.

2. Reimbursable and Match-Eligible Costs

A. Budget Costs Eligible for Reimbursement and Match

- Personal Services – Salary: Staff and paid labor costs (excludes overhead) devoted to the project must be itemized according to job title or job assignment. This also includes grant administration costs associated with preparing the final workplan (DEC contract), quarterly reporting, and reimbursement request documentation once the grant is awarded. Grant recipients will be required to document the time worked, tasks, pay ratio and payment. **Personal Services – Salary is not eligible for reimbursement for CFMPs. For UCF-2, combined salary plus fringe must not exceed 30% of the total funded grant amount.**
- Personal Services – Fringe: Fringe benefits may include social security, workers' compensation, health and disability insurance, unemployment, or any insurance programs provided by the grantee organization to staff and paid labor for work devoted to the project. Fringe benefits should be budgeted in line with your organization's standard fringe benefit policy and/or negotiated bargaining agreements. Applicants should briefly explain the percentage and composition of the fringe benefit structure and whether the budgeted fringe benefits represent an exception to standard policy. **Personal Services – Fringe is not eligible for reimbursement for CFMPs. For UCF-2, combined salary plus fringe must not exceed 30% of the total funded grant amount for any project.**
- Contractual: Costs for services rendered to the project under a written agreement with the grantee.
- Travel: Costs for staff travel from normal work location to project site.
- Equipment: Includes purchase and/or rental costs and delivery of equipment directly required to implement the project. At least one quote should be uploaded to the application for any equipment more than \$1,000.
- Other Expenses: Includes supplies and materials directly required to implement the project, the cost of publicizing the project, appropriate construction publications, or informational brochures about the project. Educational resources, such as training, that enables DPW, tree board members and volunteers to do their work and/or to enhance the spread of knowledge of community trees and the benefits they provide are allowed.

B. Budget Costs Eligible for Match, but NOT Eligible for Reimbursement

Match of at least twenty-five percent (25%) of the requested amount of grant funding is required for Tree Planting and Tree Maintenance projects only.

- Warehoused Supplies and Materials: The value of the trees and planting items, and maintenance items warehoused (pre-purchased and/or not yet installed) calculated at current market prices. These expenses should be listed as match funds in the "Other Expenses" category of the budget.
- Donated Labor: Skilled and professional labor must be computed at the job rate within the applicant county. Work performed by professional or skilled labor in an area outside of their expertise must be computed at minimum wage. These expenses should be listed as match funds in the "Personal Services - Salary" category of the budget.
- Donated equipment usage: Compute the value according to its local DPW or DOT rate in the project location. These expenses should be listed as match funds in the "Equipment" category of the budget.
- Predevelopment (tree planting only): Costs including design fees and other professional fees for the preparation of construction documents may be used for grant match only if incurred during the term of a MCG. These expenses should be listed as match funds in the "Contractual Services" category of the budget if the services are rendered under a written agreement. Otherwise, they should be listed as match funds in the "Other Expenses" category.

IV. Program Specific Questions and Application Review

All applicants must apply through the NYS Grants Gateway. This includes answering program questions and uploading required program documents and forms. Paper applications or documents will NOT be accepted.

Note: All required and optional accompanying documents must be uploaded in the Pre-Submission Uploads section of the application. Only one PDF per item can be uploaded. Uploading a second file will overwrite the first.

A. Eligibility Questions

Applications will be initially reviewed for applicant and project eligibility on a pass/fail basis. Applications that pass all the following eligibility criteria will be further evaluated and scored. **Applications that fail one or more of the following eligibility criteria will be disqualified from further review or funding.**

Choose a simple and descriptive title for your project (Town of XYZ Tree Maintenance, or City of ABC Tree Inventory and Community Forest Management Plan, etc.).

1. Project Type: Did the applicant choose the appropriate project number (UCF1 – Inventory, Management Plan; or UCF2 – Planting or Maintenance) and did the application address an eligible project type (Tree Inventory, Community Forest Management Plan, Tree Planting, or Tree Maintenance) as described in this RFA?

2. Applicant Type: Is the applicant an eligible governmental or quasi-governmental entity, not-for-profit (NFP) corporation, or Indian Tribe as defined in the RFA, and if the applicant is an NFP, was the NFP prequalified in Grants Gateway by the due date of the RFA?

3. Eligible Project Location: Is the project on eligible land types as described in I.6. Eligible Project Locations?

4. Ownership/Site Permission: Did the applicant provide appropriate documentation regarding owner consent of the project as per the following criteria?

- a) If the project area (right-of-way, parks) is owned by the applicant, nothing needs to be uploaded.
- b) If project area is not owned by the applicant, a municipal endorsement (Appendix 4) or agreement for the project to be conducted by the applicant and signed by the owner must be uploaded as one PDF in Pre-Submission Uploads.

5. Other Funding: Is the proposed project already receiving funds from another New York State or federal assistance program for the same activities as those being proposed in this application? Note: this is the only Eligibility question in which a “No” answer = pass and “Yes” = fail.

6. Tree List – Tree Planting and Tree Maintenance projects only:

- a. **Tree Planting projects:** Did the applicant upload a list of the tree species to be planted, approved by an appropriate professional such as a DEC urban forester, ISA arborist, or other urban forestry professional? Include proof of approval and credentials of professional.
- b. **Tree Maintenance projects:** Did the applicant upload a tree inventory, completed and actively managed within the last 8 years, that includes all work in the project area?

7. Project Map and Photos: Did the applicant upload:

- a. **For all projects**, a legible map clearly identifying the project area (no hand-drawn maps)?
- b. **For Tree Planting and Tree Maintenance projects**, ground-level photos showing a sample of specific planting sites or trees to be pruned or removed depending on the project?

8. Project Estimates: Has the applicant uploaded at least one estimate for each expense greater than \$1,000 (purchase of trees, consultant/contractor, equipment) on letterhead with company address and credentials? ISA arborists should include ISA certification number.

9. Project Completion Time Frame: Will the project be completed within a two-year time frame?

10. Sexual Harassment Prevention Certification: Did Applicant sign and upload the Sexual Harassment Prevention Certification form (Attachment S) or upload a signed statement, detailing the reasons why the certification cannot be made, into the Pre-Submission Uploads folder? Locate the Certification form in Grants Gateway Pre-Submission Uploads. Do not upload your policy.

11. Executive Order No. 16: This Order provides that “all Affected State Entities are directed to refrain from entering into any new contract or renewing any existing contract with an entity conducting business operations in Russia.” The complete text of Executive Order No. 16 can be found at <https://www.governor.ny.gov/executive-order/no-16-prohibiting-state-agencies-and-authorities-contracting-businesses-conducting>. The Executive Order remains in effect while sanctions against Russia imposed by the federal government are in effect. Accordingly, vendors who may be excluded from award because of current business operations in Russia are nevertheless encouraged to respond to solicitations to preserve their contracting opportunities in case the sanctions are lifted during a solicitation or even after award in the case of some solicitations. As defined in Executive Order No. 16, an “entity conducting business operations in Russia” means an institution or company, wherever located, conducting any commercial activity in Russia or transacting business with the Russian Government or with commercial entities headquartered in Russia or with their principal place of business in Russia in the form of contracting, sales, purchasing, investment, or any business partnership. Vendors responding to this solicitation are required to complete and submit the form entitled “Certification Under Executive Order No. 16 Prohibiting State Agencies and Authorities from Contracting with Businesses Conducting Business in Russia”, attached hereto in Pre-Submission Uploads.

B. Scored Application Questions

If the application meets all eligibility pass/fail criteria, it will be further evaluated and scored by a review team in accordance with section IV.C. Application Evaluation and Method of Award.

Note: questions and question numbers in this RFA do not correspond exactly to those in Grants Gateway.

1. Project Goals and Local Needs

Describe the goals of this project and how this project fits in with the local master plan or other local or regional plans. Tell us about the community where this project is happening. Describe local needs and how this project will address those needs.

- | | |
|--|---------|
| (A) The project goals and needs are thoroughly defined and the project clearly addresses the stated needs. | 10 pts. |
| (B) The project goals and needs are well defined and the project addresses the stated needs. | 6 pts. |
| (C) The project goals and/or needs are somewhat defined but need more clarification. | 3 pts. |
| (D) The project goals or needs are poorly defined or the project does not meet the stated needs. | 0 pts. |

2. Project Description, Planning and Timeline

Describe the project in as much detail as possible, including:

- Who will be involved in the planning, including internal departments and outside groups (i.e.: DPW, planning staff, parks department, tree board, not-for-profits, etc.)
- Who will implement the project?
- How will the project be implemented?
- Show how it will be completed within the 2-year grant period.

- (A) The project is thoroughly planned out and detailed, all relevant stakeholders are involved, and a detailed timeline is included. 20 pts.
- (B) The project is well planned with sufficient details, relevant stakeholders are involved, and a sufficient timeline is included. 15 pts.
- (C) The project is adequately planned but missing some details, minimal stakeholders are involved, and a minimal timeline is included. 7 pts.
- (D) The project is inadequately described, no stakeholders are involved, and the timeline is unclear. 0 pts.

3. Local Partnership

Partnerships are an important component of strong UCF programs. Each project must involve at least one partner in addition to the applicant. Describe the partner and their role in detail. A letter from the partner committing to their role in the project must also be uploaded. A partner is defined as a separate local entity that plays an active role in the project. If applicants have more than one partnership for a project, they should clearly describe each partner and their role, and upload a commitment letter from each partner in one document.

- Examples of partners: the applicant working with an advisory board or committee (such as a tree board or conservation committee), service organizations (Rotary, Lions Club, etc.), local civic or hobby groups (garden clubs, scouts, hiking clubs, student groups, etc.), churches, not-for-profit organizations, business development groups, schools, medical groups, or neighboring municipalities. Different departments within the same municipality do not qualify as a partner but should be included in the project description.
- Contractors hired for this project do not qualify as a partner.
- Partners must commit to an active role in the project by performing specific tasks or supporting parts of the project. This might include labor (tree planting, mulching, watering, maintenance), or performing outreach and education to the community (collecting community feedback, organizing an Arbor Day celebration, developing a social media campaign about the project, giving public presentations, providing training or workshops for volunteers and community members (right tree right site or young tree care), etc.).

Applicants should provide an explanation of:

- who the partner is, and what their role will be,
- how their role will enhance this project or the local community forestry program in general
- AND upload a letter from the partner (in Pre-Submission Uploads) on partner's letterhead describing their role and commitment to the project. The letter from the partner can be addressed to the applicant and must be signed by someone with the authority to commit the partner to this. Note: this is different from a letter of support in that it includes a commitment from the partner of what they will specifically do as part of this project.

- (A) The partner's role in the project is clear and the partner is involved in multiple aspects of the project. A letter from the partner which states their role and commitment to the project has been uploaded. 10 pts.
- (B) The partner's role is clear and the partner is involved in a notable aspect of the project. A letter from the partner stating their role and commitment to the project has been uploaded. 6 pts.
- (C) The partner's role is unclear and/or the partner is minimally involved in the project. A letter from the partner stating their role and commitment to the project has been uploaded. 3 pts.
- (D) The commitment letter is missing. 0 pts.

4. Outreach Strategy

Outreach, education and community engagement are important components of strong UCF programs. Community members affected by this project should be aware of and provided opportunities to be engaged in the project (i.e., community meetings, choice of trees, volunteer opportunities, tree care workshops and materials, education programs/walks/displays, Arbor Day events, etc.). Outreach and education can be conducted by the applicant or partners. Describe the outreach strategy and activities in detail, including who will be responsible for which components.

- | | |
|---|---------|
| (A) Applicant clearly described an education and outreach strategy that will reach community members from all backgrounds and provide multiple opportunities and ways for community members to engage with the project. | 12 pts. |
| (B) Applicant described an adequate education and outreach strategy to engage community members of different backgrounds | 7 pts. |
| (C) Some public outreach and/or education effort was described that may or may not reach community members | 3 pts. |
| (D) No public outreach and/or education efforts were described. | 0 pts. |

5. Disadvantaged Communities

What portion of the project is in a disadvantaged community? For the purposes of this grant, “disadvantaged community” maps have been developed under the 2019 NYS Climate Act. To reference these maps, use the DECinfo Locator <https://www.dec.ny.gov/pubs/109457.html>. Click on the DEC Information Layers tab, then Public Involvement tab on the left side of the map. Check the box for Disadvantaged Communities (DAC) only. Use the Tools tab to print the map and upload a copy showing the project area in relation to the DAC in Pre-submission Uploads. Include what percentage of the project is in the DAC.

Note: Cemeteries and parks that are open to the public and not designated in a DAC in the above maps but are directly adjacent to a disadvantaged community are eligible project locations. Explain how residents of the DAC would benefit from, have access to and are currently using the project area.

- | | |
|--|--------|
| (A) The entire project is located in a DAC or is an eligible project location as per this RFA and completely surrounded by a DAC. Supporting information was clearly documented. | 5 pts. |
| (B) A portion of the project is located in a DAC, or directly adjacent to a DAC as described above, and applicant explained how the residents of the DAC will benefit from the project. Supporting information was clearly documented. | 3 pts. |
| (C) The project is not in a DAC or the applicant did not provide adequate documentation showing the area is in a DAC. | 0 pts. |

6. First Time Awardee

Applicants who have never been awarded a DEC UCF grant or have not been awarded a grant in UCF Round 10 (2009/2010) or later are eligible to receive extra points.

- | | |
|---|--------|
| (A) Applicant has never been awarded a DEC Urban Forestry Grant or has not received an award since and including Round 10 (2009-2010). | 5 pts. |
| (B) Applicant has received at least one DEC UCF Grant award in Rounds 10 (2009-10) through 15 (2019-21), or Tree Planting in Disadvantaged Communities (2022-23). | 0 pts. |

7. Tree City USA

Proposed projects that take place within a Tree City USA community that certified or recertified for work occurring in 2022 will receive points in the evaluation of their application.

- | | |
|--|--------|
| (A) The project takes place within a community that was certified as a Tree City USA for work occurring in 2022. | 3 pts. |
|--|--------|

(C) The project does not take place within a community that was certified as a Tree City USA for work occurring in 2022. 0 pts.

8. Cost Effectiveness - Budget – Salary, Contractual, Equipment etc.

Complete all applicable fields in the Grants Gateway Expenditure Budget. All grant funds must be accounted for in the Budget section. The Narrative sections require expenditures to be explained including purpose of expenses (salaried person's roles, equipment, outreach, etc.). Equipment and outreach materials should be itemized in the Summary section. Items more than \$1,000 require estimates/quotes to be included. Include details of materials to be purchased such as mulch, stakes, ties, guards, soil, structural soil, Silva Cells, pervious pavement, and materials necessary for project. DEC will review and assess proposed projects based on the cost-effective nature and value of the proposal. Projects with clearly written budgets that are deemed cost effective, only include eligible costs, and demonstrate value for cost will be approved. Applications that do not provide sufficient information to determine whether costs are eligible and reasonable will lose points and may receive a reduced grant award if funded.

a. Cost Effectiveness 1 – Budget Details

How detailed is the budget? Is the budget clear? Are quotes totaled and easy to read?

- | | |
|---|---------|
| (A) The budget contains an exceptional level of detail to assess cost-effectiveness. | 10 pts. |
| (B) The budget contains a good level of detail to assess cost-effectiveness. | 6 pts. |
| (B) The budget contains a fair level of detail to assess general cost-effectiveness. | 3 pts. |
| (C) The budget does not contain an adequate level of detail to assess cost-effectiveness. | 0 pts. |

b. Cost Effectiveness 2 – Reasonable, Eligible, and Value of Expenses

Does the budget contain reasonable and eligible expenses for implementing the project?

- | | |
|--|---------|
| (A) All expenses are included in the budget and only reasonable and eligible implementation expenses as detailed in the RFA are included in the budget. The value relative to the cost is very good. | 12 pts. |
| (B) Mostly reasonable implementation expenses are included in the budget. The value relative to costs is good. | 7 pts. |
| (D) Multiple unreasonable expenses are included and/or applicant did not provide adequate detail. | 3 pts. |
| (E) Many ineligible or unreasonable expenses are included and/or applicant did not describe need for them. | 0 pts. |

Workplan

The workplan contains 3 sections: **all required**

1. Project Summary
2. Organizational Capacity
3. Project Details- Objectives, tasks and performance measures

(Numbers 1 and 3 become part of the contract if awarded)

9. Project Summary. Even though the Grants Gateway says to provide a high-level overview of the project, use the Project Summary to describe the entire project. It may be helpful to copy and paste the answers from the previous questions.

10. Organizational Capacity

Describe the staffing, qualifications, and relevant experience of the applicant to support the project. Describe the knowledge, skills, and/or experience that both the applicant and key staff members possess to successfully implement the proposed project.

- | | |
|--|--------|
| (A) The applicant has clearly documented they have the organizational capacity and experience to execute the proposed project successfully. | 5 pts. |
| (B) The applicant has provided good information about their organizational capacity and experience to execute the project, but some information is missing or more detail is needed. | 3 pts. |
| (C) The applicant provided little or no detail about their organizational capacity and experience to successfully implement the project. | 0 pts. |

11. Objectives, Tasks and Performance Measures

The objectives, tasks and performance measures become part of the contract if awarded.

Complete the Projects Detail section with objectives, tasks and performance measures that cover all deliverables. See the Workplan – Project Details worksheet in the Round 16 RFA.

- | | |
|---|--------|
| (A) The objectives, tasks and performance measures cover all project deliverables and expenses. | 8 pts. |
| (B) The objectives, tasks and performance measures cover most deliverables and expenses. | 6 pts. |
| (C) The objectives, tasks and performance measures are missing some important deliverables or expenses. | 3 pts. |
| (D) The objectives, tasks and performance measures provided little or no information | 0 pts. |

C. Application Evaluation and Method of Award

All eligible applications submitted by the due date will be reviewed and scored by members of a DEC review team according to this section. All scores will be averaged to determine an applicant's final score. A final score of at least 50% of total points is required to be considered awardable.

UCF1 and UCF2 applications will each be grouped into two lists, "**Large Community Grants**" and "**Small Community Grants**" as defined in Section I.2. Round 16 Funding. Note the deadlines for each project type on the front of this RFA.

- "**Large Community Grants**" applications will be selected for funding beginning with the highest down to the lowest ranked project until available funding for "Large Community Grants" projects is exhausted or no awardable "Large Community Grants" applications remain.
- "**Small Community Grants**" applications will be selected for funding beginning with the highest scored application down to the lowest ranked project until all available funding for "Small Community Grants" is exhausted or no awardable "Small Community Grants" applications remain.
- **Tie Breaker:** If there is a numerical tie between multiple applications within a funding category, the order in which applications were received will determine placement on the ranked list, with the earliest application placing highest.

V. Grants Gateway Instructions

All applicants must apply through the NYS Grants Gateway. This includes answering questions and providing accompanying documents. Paper applications will NOT be accepted.

See Section I.3. Inquiries and Contact Information, for links to helpful Grants Gateway resources.

GRANTS GATEWAY APPLICATION ROLES: The Grants Gateway allows for several "permission levels" or "roles." Roles cannot be merged. If an individual requires multiple roles, they will receive a separate account login for each role.

"Grantee" role can initiate, edit, or save a grant application. This user can NOT submit the application.

"Grantee Contract Signatory" role can initiate, edit, save, and submit (sign) a grant application.

"Grantee System Administrator" role can initiate, edit, save, and submit (sign) a grant application.

“Grantee Delegated Administrator” role creates users and assigns roles. This user can NOT initiate an application.

Applicants and Submitters are requested to keep roles independent in case of staff changes. The Applicant and Submitter should be an officer or staff representative of the municipality, NFP or approved entity. A third party, such as a grant writer, can be given the role of Grantee, which enables them to write and save a grant. The Applicant or Submitter needs to take the final responsibility for submitting applications.

Each grantee organization is required to have at least one Grantee Delegated Administrator, for the purpose of creating other user accounts. Each grantee organization is required to have at least one Grantee System Administrator or a Grantee Contract Signatory, for the purpose of submitting the application for review, and for signing the contract should the grantee receive an award.

The Grantee role is designed for a grant writer, municipal or NFP staff or another third party. The Grantee role has capabilities limited to creating, editing, and saving the grant application. Grantees are not able to submit the application.

All applicants must be registered with Grants Gateway to open and submit an application.

A. Finding Urban and Community Forestry Applications

1. **Login.** Click the Grants Gateway Login button near the top left of the home page, then login using your credentials. If your organization hasn't registered and received credentials, go to Grants Gateway (<https://grantsmanagement.ny.gov>) to get started.
2. Click on the “View Opportunities” button under View Available Opportunities
3. Enter search criteria to limit Search Results. To find Urban and Community Forestry grant opportunities, Type “Urban or Tree” in the Search by Grant Opportunity box
4. Click on the correct name of the Grant Opportunity you're looking for in the search results grid.
 - A. Use Grants Gateway Opportunity **ID No: DEC01-UCF-2023** for Tree Inventory and/or Community Forest Management Plan.
 - B. Use Grants Gateway Opportunity **ID No: DEC02-UCF-2023** for Tree Planting OR Tree Maintenance.

B. Creating an Application

1. Click the Apply for Grant Opportunity button to initiate an application, click on the **Forms Menu** link near the top of the page next to a green button.
2. Enter the required information into the following sections:
 - a. Program Information
 - b. Work Plan
 - c. Expenditure BudgetInformation may be entered into the forms sections in any order. You may find it easier and more intuitive to develop a project Work Plan using the Pre-Submission download generic work plan template before answering some of the program specific questions or completing the budget forms. Remember to click **SAVE** near the top of the page. Click **SAVE** often while working on a form and always before exiting a form or the information that was input will be lost!

C. Application Components in the Grants Gateway Forms Menu

1. Program Information
 - a. Project/Site Addresses

- Name/Description: Enter the name of the project location. This is not the project name/title that is entered under Program Specific Questions. If the project is to take place in a specific location such as a park, building, or an entire town or county, indicate that here. This can be a home office if applicable, or a project site.
 - Address: Enter physical address of the applicant
 - Agency Specific Region: Select the DEC region that most closely aligns with the project address. For more information on DEC regions, visit DEC's Regions web page (<https://www.dec.ny.gov/24.html>).
- b. Program Specific Questions
- Project Title: Enter a title that clearly identifies the project e.g., *City of Albany Tree Planting*.
 - The numbered "questions" in this RFA may not match up with the numbers in the actual online application.
 - The questions may have a yes/no choice or a text box.
 - **All required and optional accompanying documents must be uploaded in the Pre-Submission Uploads section of the application. Only one PDF per item can be uploaded with a maximum size of 10MB. Uploading a second file will overwrite the first.**
2. Expenditure Budget
- Account for all grant funds in this section and use the narrative fields to explain/justify each expense.
3. Work Plan
- a. Work Plan Overview Form
- Work Plan Period: Enter a 2-year timeframe for the entire project. This date will be finalized after submission.
 - Project Summary: The Grants Gateway text says to enter a high level overview of the project. We want a full, detailed workplan narrative. You can copy and paste the text from the text boxes you already filled out.
 - Organizational Capacity: Describe the staffing, qualifications and ongoing staff development/training activities, and relevant experience of the provider organization to support the project.
- b. Work Plan Properties (objectives, tasks and performance measures). The purpose of the Work Plan Properties is to build a list of activities and deliverables that will become the part of the State contract and progress reports going forward.
- Enter objectives, followed by associated tasks, then the associated performance measures for each task. You may add Objectives, Tasks and Performance Measures up to and including the max amount allowed. Every Objective must have at least one Task and every Task must have at least one Performance Measure.
 - Objective: To get started, add your first Objective Name and Description and then click the [SAVE] button at the top of the page.
 - Task - After hitting Save, a field for the Task Name and Task Description will show under the Objective box. Complete both fields and hit the [SAVE] button at the top of the page. After entering the Task information and clicking Save, you will see a box for the Performance Measure information and a box to enter a second Task.
 - Performance Measure - Enter a Performance Measure Name and select the Performance Measure Data Capture Type from the dropdown box.
 - Remove - A 'Remove' box has been added within each Objective, Task and Performance Measure box. If you have added a row that you would like to delete, put a checkmark in the box next to 'Remove' and hit the [SAVE] button at the top of the page. If you remove an Objective, all associated Tasks and Performance Measures will also be deleted upon hitting [SAVE]. Likewise, if you remove a Task, all associated Performance Measures associated with that Task will be deleted.
 - Move Up/Move Down - Reordering is easy with the move up/move down feature. For example, if you create an objective set and then realize that there should have been another one listed before it, click the arrow button facing down next to that task (or objective, or performance measure) that you want to reorder. NOTE: Moving an Objective will also move all related Tasks

and Performance Measures. Moving a Task will also move all Performance Measures associated with that Task.

- Focus on establishing quality performance measures. Be sure to create at least one performance measure for each of the essential project deliverables, including Outreach & Education, Partnerships and Long-term Support. If applicable, performance measures can also include desired project outcomes in addition to deliverables.

4. Pre-Submission Uploads

- a. All required and optional accompanying documents must be uploaded in the Pre-Submission Uploads section of the application. Only one PDF per item can be uploaded. Uploading a second file will overwrite the first. Fields are provided for required documents.
 - Disadvantaged Communities Map
 - Site Permission (if applicant does not own the property where the project will take place)/municipal endorsement
 - List of tree species
 - Project estimate(s)
 - Signed Sexual Harassment Prevention Certificate (Attachment S) Do not upload the policy.
 - Executive Order 16: Conducting Business with Russia
 - Partner letter
 - Other uploads – use this field to upload any documents that are useful for describing the project to the application reviewers.
- b. Pre-Submission Uploads is also where you can DOWNLOAD a variety of documents and forms as follows:
 - Attachment S: Sexual Harassment Prevention Certification Form. Must be signed and uploaded.
 - Executive Order 16: Conducting Business with Russia
 - Work Plan Worksheet: Use this template in MS Word to draft your Work Plan Summary (narrative) and Work Plan Properties (objectives, tasks and performance measures).
 - Sample Municipal Endorsement

D. Submitting an Application

1. Login to the Grants Gateway with one of the following Grants Gateway roles.
 - Grantee Contract Signatory
 - Grantee System Admin
2. Retrieve the completed application by searching for it under the Applications link on top of the screen. (Try leaving all search fields blank then scroll down to see multiple results).
3. To check your application for errors, click on the CHECK FOR ERRORS link under the Management Tools link. This will provide you with a list of errors that need to be corrected before submission.
4. In order to submit your online application, click on the Status Changes link located top of your application main page. When the application is ready for submission, click the Status Changes tab, then click the “Apply Status” button under “Application Submitted.”

VI. What to Expect If You Receive an Award

1. Notification of Award and Initial Steps

Applicants selected to receive a grant award will be notified by email and in an official DEC award letter on a rolling basis as Eligibility is verified.

IMPORTANT NOTE: By accepting an award, applicant agrees to abide by all Master Contract for Grants (MCG) terms and conditions. Any changes to the terms and conditions will not be accepted and may affect applicant’s award.

Awardees will be asked to submit insurance certificates appropriate for the project, including Workers Compensation and Disability (or exemptions), plus Liability with endorsements, in order to complete the MCG.

All projects must be completed and invoiced within a two-year contract term. Awardees should not begin their projects or incur costs until an MCG has been fully approved by DEC, and if applicable, approved by the Attorney General and the State Comptroller.

2. Grant Program Payment and Reporting

Advance payments of up to 25% of the awarded grant amount may be available to not-for-profit grantees once a Master Contract for Grants (MCG) has been fully approved by all applicable State agencies. Municipalities are not eligible to receive advance payments under State Finance Law.

Quarterly Progress Reports must be submitted in Grants Gateway in narrative form, no later than 30 days from the end of the calendar quarter. The reports will summarize how the project progressed toward meeting project objectives and deliverables during the respective quarter. The following are the calendar quarters for this grant program:

- January 1 through March 31
- April 1 through June 30
- July 1 through September 30
- October 1 through December 31

If the MCG contract term date falls in the middle of a calendar quarter, the first progress report will not be due in that initial calendar quarter. Instead, the first progress report will be due at the end of the following calendar quarter and will incorporate all activity from the MCG term date through the close of the first full calendar quarter.

- **Project costs eligible for reimbursement must be incurred between the MCG term start and end dates.** Costs incurred prior to the MCG term start date or after the MCG term end date will not be considered eligible for grant reimbursement or match. Copies of supporting cost documentation (paid invoices, receipts, cancelled checks, etc.) must be audited and approved by DEC for costs to be eligible for grant reimbursement.
- Projects already receiving funds from another NYS or Federal assistance grant program are not eligible to receive funding for the same project activities identified in this RFA.
- *Optional* - Quarterly Expenditure Reports, detailed by category of expense as defined in the MCG Attachment B-1 Expenditure Based Budget, may accompany the quarterly progress reports. These expenditure reports must correlate to vouchers submitted for payment. Approved project-required permits and permissions must be in place to submit a reimbursement request.
- A DEC inspection/s will be required to confirm all work was completed in accordance with the approved project work plan.
- A final progress report must be submitted in Grants Gateway and approved by DEC prior to the release of the final grant payment to the Grantee. The Contractor (Grantee) must submit the final report no later than 60 days after the end of the contract term. The final report should detail all aspects of the program and summarize how the use of grant funds was utilized in achieving the goals set forth in the approved MCG Attachment C Work Plan. Copies of appropriate documents and deliverables must be submitted and approved by DEC.
- Tree planting projects require a minimum survival rate of 95% at the time of DEC forester inspection prior to final reimbursement. Inspections should occur after at least one growing season. If planting in last quarter of the grant, final inspection may not occur until after a growing season to determine survival rate.
- Fifteen percent (15%) of the grant amount will be held as retainage until project completion. Any final or interim payment request submitted before completion of all performance measures will be reduced, such that 15% of the grant amount remains unpaid. Once all performance measures have been

achieved and the project passes DEC urban forester inspection, any withheld retainage will be released for payment.

- Equipment purchased with grant funding and having a useful life of more than one year and an acquisition cost of \$1,000 or more per unit, shall become the property of DEC and shall be transferred to DEC following contract closeout, unless otherwise approved by DEC. Please refer to page 17 of the State of New York Master Contract for Grants for additional detail on “Property.”

3. State of New York Master Contract for Grants (MCG)

Applicants selected to receive a grant award will be required to execute an MCG within 90 days from the time of their award notification. Failure to submit timely required MCG documents could cause a grantee to lose their grant award. Applicants should review and be prepared to comply with all MCG terms and conditions should grant funding be awarded. The MCG and attachments can be reviewed and/or downloaded in the Grants Gateway UCF application under the “Forms Menu” screen named ‘Contract Document Properties.’ The MCG and attachments include:

- MCG Grants Face Page
- Standard Terms and Conditions (NYS standard terms and conditions)
- Attachment A-1 Program Specific Terms and Conditions (Agency and Program Specific Terms and Conditions)
- Attachment A-2 Federally Funded Grant Terms and Conditions (optional)
- Attachment B-1 Expenditure Based Budget (project expense categories and detail)
- Attachment C Work Plan (project objectives, tasks and performance measures)
- Attachment D Payment and Reporting Schedule (claims for reimbursement and grant reporting provisions)

IMPORTANT NOTE: Project-related costs must be incurred within the contract term of the MCG to be considered eligible for reimbursement. Contract payments will not be approved or processed by DEC until a MCG is approved by DEC, and as applicable, the Attorney General and the State Comptroller. All contracts must be approved by the contract term start date which will be determined at the time of an official award.

Applicants should be prepared to comply with the following Master Contract for Grants Requirements:

a. Insurance Requirements

Contractors (municipality, not-for-profit) will be required to carry appropriate insurance as specified in the MCG, Attachment A-1 Program Specific Terms and Conditions, and agree that each project consultant, project contractor and project subcontractor secures and delivers to the contractor appropriate policies of insurance issued by an insurance company licensed to do business in the State of New York. Policies must name the contractor as an additional insured, with appropriate limits, covering contractor’s public liability and property damage insurance, contractor’s contingency liability insurance, “all-risk” insurance and workers’ compensation/disability benefits coverage for the project.

b. Permit Requirements (if applicable)

Contractors agree to obtain all required permits, including, but not limited to, local, state and federal permits prior to the commencement of any project-related work. The Contractor agrees that all work performed in relation to the project by the Contractor or its agents, representatives, or contractors will comply with all relevant federal, state and local laws, rules, regulations and standards, zoning and building codes, ordinances, operating certificates for facilities, or licenses for an activity.

c. State Environmental Quality Review (SEQR) Documentation

With respect to the project, the Contractor certifies that it has complied, and shall continue to comply with all requirements of the State Environmental Quality Review Act (SEQRA). The Contractor agrees to provide all environmental documents as may be required by DEC. The Contractor has notified, and

shall continue to notify, DEC of all actions proposed for complying with the environmental review requirements imposed by SEQRA.

d. Iran Divestment Act

As a result of the Iran Divestment Act of 2012 (Act), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL), § 165-a, effective April 12, 2012. By entering into a Contract, the Contractor certifies that it is not on the “Entities Determined To Be Non-Responsive Bidders/Offerers Pursuant to The New York State Iran Divestment Act of 2012” list (“Prohibited Entities List”) [posted on the OGS website](http://www.ogs.ny.gov/about/regs/docs/ListofEntities.pdf) (<http://www.ogs.ny.gov/about/regs/docs/ListofEntities.pdf>) and further certifies that it will not utilize on such Contract any subcontractor that is identified on the Prohibited Entities List. Additional detail on the Iran Divestment Act can be found in the MCG, Attachment A-1 Program Specific Terms and Conditions.

e. Minority/women Business Enterprises (M/WBE) and Equal Employment Opportunities (EEO) Requirements

The Department is required to implement the provisions of New York State Executive Law Article 15-A and 5 NYCRR Parts 142-144 (“MWBE Regulations”) for all State contracts with a value (1) in excess of \$25,000 for labor, services, equipment, materials, or any combination of the foregoing or (2) in excess of \$100,000 for real property renovations and construction.

Applicants subject to executing a future NYS Master Contract for Grants agree, in addition to any other nondiscrimination provision of the MCG and at no additional cost to the Department, to fully comply and cooperate with the Department in the implementation of New York State Executive Law Article 15-A.

These requirements include equal employment opportunities for minority group members and women (“EEO”) and contracting opportunities for certified minority and women-owned business enterprises (“MWBEs”). Contractor’s demonstration of “good faith efforts” pursuant to 5 NYCRR §142.8 shall be a part of these requirements. These provisions shall be deemed supplementary to, and not in lieu of, the nondiscrimination provisions required by New York State Executive Law Article 15 (the “Human Rights Law”) or other applicable federal, state or local laws.

Failure to comply with M/WBE and EEO requirements may result in a Department finding of non-responsiveness, non-responsibility and/or a breach of contract, leading to the withholding of funds or such other actions, liquidated damages or enforcement proceedings.

Please refer to the NYS Master Contract for Grants - Article IV (J) and Attachment A-1 Program Specific Terms and Conditions - Article X, to review M/WBE and EEO requirements. Required M/WBE and EEO related forms can be found at <http://www.dec.ny.gov/about/48854.html>

- The local government is responsible for designating someone to serve as their Affirmative Action representative. The governing body should make this designation through official means.
- A list of certified M/WBE enterprises can be obtained via the internet from the NYS Department of Economic Development at <https://ny.newnycontracts.com/FrontEnd/VendorSearchPublic.asp?TN=ny&XID=9885>
- Contracts which meet the established M/WBE-EEO thresholds require the Contractor to submit Quarterly Reports, http://www.dec.ny.gov/docs/administration_pdf/quarterlyversion7.pdf, detailing payments made by the Prime Contractor to NYS Certified M/WBEs.
- The following M/WBE-EEO “Fair Share” goals are established as follows:

Minority and Women Owned Business Enterprise (MWBE) Overall Participation Goals:

Construction/Engineering – 0%

Commodities – 0%

Services/Technologies –0%

Equal Employment Opportunity (EEO) Participation Goals:

EEO Minority Workforce Participation Goals (DEC Regions 1- 9) 0%

EEO Female Workforce Participation Goals (DEC Regions 1-9) 0%

DEC M/WBE Compliance

NYS Department of Environmental Conservation

Bureau of Contract and Grant Development/MWBE Program
625 Broadway, 10th Floor
Albany, New York 12233-5028
Phone: (518) 402-9240
Fax: (518) 402-9023

f. Service-Disabled Veteran-Owned Business Participation Requirements

The contractor must make good faith efforts to subcontract a goal of 0% of the contract amount to New York State Certified Service-Disabled Veteran-Owned Businesses (SDVOBs), for purposes of providing meaningful participation by SDVOBs.

g. Procurement of Contractors/Subcontractors

Municipalities must comply with General Municipal Law Sections 103 (competitive bidding) and 104-b (procurement policies and procedures). Not-for-profit corporations must follow procurement policies that ensure prudent and economical use of public money. Failure to comply with these requirements could jeopardize full reimbursement of your approved eligible project costs.

h. Americans with Disabilities Act

In the event the monies defined herein are to be used for the development of facilities, outdoor recreation areas, transportation or written or spoken communication with the public, the Contractor shall comply with all requirements for providing access for individuals with disabilities as established by Article 4A of the New York State Public Buildings Law, Americans with Disabilities Act, and relevant sections of the New York State Uniform Fire Prevention and Building Code. Standards for certain Recreation Facilities are found in the 2010 ADA Standards for Accessible Design while others are found in the [Architectural Barriers Act Accessibility Guidelines for Outdoor Recreation Areas](https://www.access-board.gov/guidelines-and-standards) (<https://www.access-board.gov/guidelines-and-standards>).

i. Executive Order 16

Executive Order No. 16 provides that “all Affected State Entities are directed to refrain from entering into any new contract or renewing any existing contract with an entity conducting business operations in Russia.” The complete text of Executive Order No. 16 can be found at <https://www.governor.ny.gov/executive-order/no-16-prohibiting-state-agencies-and-authorities-contracting-businesses-conducting>. The Executive Order remains in effect while sanctions against Russia imposed by the federal government are in effect. Accordingly, vendors who may be excluded from award because of current business operations in Russia are nevertheless encouraged to respond to solicitations to preserve their contracting opportunities in case the sanctions are lifted during a solicitation or even after award in the case of some solicitations. As defined in Executive Order No. 16, an “entity conducting business operations in Russia” means an institution or company, wherever located, conducting any commercial activity in Russia or transacting business with the Russian Government or with commercial entities headquartered in Russia or with their principal place of business in Russia in the form of contracting, sales, purchasing, investment, or any business partnership. Vendors responding to this solicitation are required to complete and submit the form entitled “Certification Under Executive Order No. 16 Prohibiting State Agencies and Authorities from Contracting with Businesses Conducting Business in Russia.”

j. Sexual Harassment Certificate

State Finance Law §139-l requires all applicants of grant funding to certify that they have a written policy addressing sexual harassment prevention in the workplace and provide annual sexual harassment training (that meets the Department of Labor’s model policy and training standards) to all its employees.

Where applying for grant funding is required pursuant to statute, rule or regulation, every application submitted to the state or any public department or agency of the state must contain the following statement: “By submission of this application, each applicant and each person signing on behalf of the applicant certifies, and in the case of a partnering application each party thereto certifies as to its own

organization, under penalty of perjury, that the applicant has and has implemented a written policy addressing sexual harassment prevention in the workplace and provides annual sexual harassment prevention training to all of its employees. Such policy shall, at a minimum, meet the requirements of section two hundred one-g of the labor law.”

Applications that do not contain the certification will not be considered for award; provided however, that if the applicant cannot make the certification, the applicant may provide a signed statement with their application detailing the reasons why the certification cannot be made. After review and consideration of such statement, the Department may reject the application or may decide there are sufficient reasons to accept the application without such certification.

Applicants are required to sign and upload the Sexual Harassment Prevention Certification form or upload a signed statement with their application detailing the reasons why the certification cannot be made into the pre-submission uploads folder.

VII. Appendices

APPENDIX 1 – Large Community Grants List

Projects within the communities listed below are eligible for grants up to \$75,000 in Round 15. These communities have been identified as having populations greater than 65,000.*

Cities

Albany
Buffalo
Mount Vernon
New Rochelle
New York City
Rochester
Schenectady
Syracuse
Yonkers

Towns

Amherst
Babylon
Brookhaven
Cheektowaga
Clarkstown
Colonie
Greece
Greenburgh
Hempstead
Huntington
Islip
North Hempstead
Oyster Bay
Ramapo
Smithtown
Southampton
Tonawanda

*All other communities with populations below 65,000 qualify for Community grants up to \$50,000

APPENDIX 2 - Recommended Minimum Standards for NYS DEC Tree Planting Projects

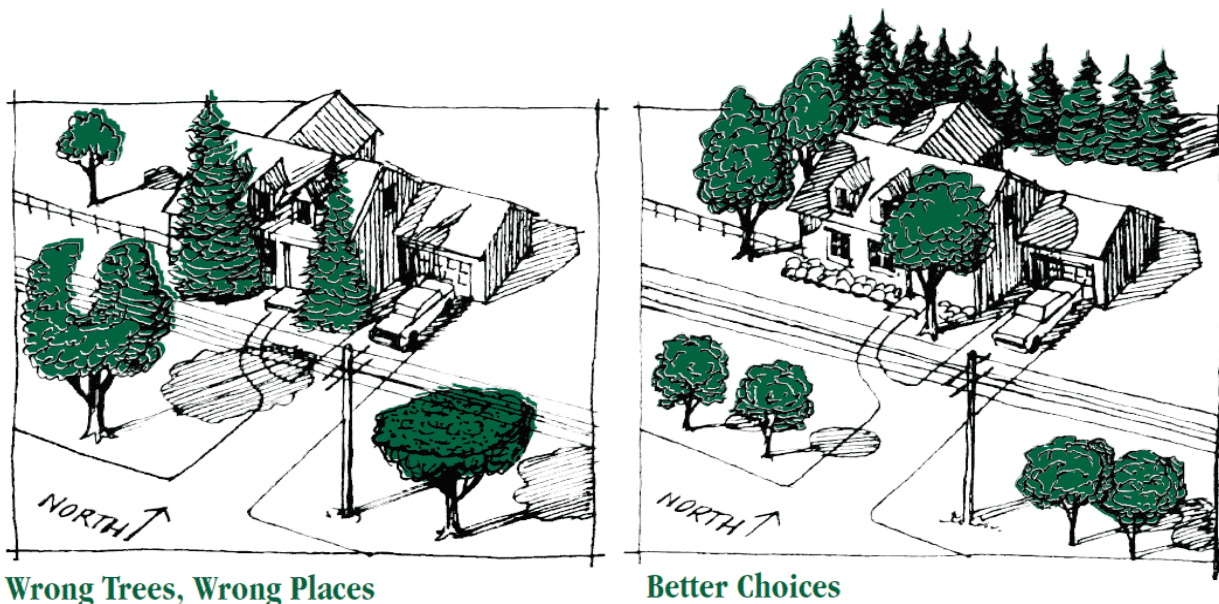

The following are minimum standards for DEC Urban and Community Forestry tree planting grant projects. Where local ordinances and guidelines require more stringent standards, use the more stringent standards. All tree planting work should be supervised by a qualified professional and follow the ANSI A300 standards for tree planting.

Planning:

Planting trees is a major investment and by selecting the right tree for the right place, one can save time, money and potential problems down the road. Proper planning is crucial for successful projects. A detailed tree planting plan/Scope of Work and five-year maintenance plan must be developed with input from local agencies to avoid conflicts. Where underground or above ground utilities are present, contact NewYork811 (<https://newyork-811.com/>) in NY City and Long Island and contact UDIG.NY (<https://udigny.org/>) for the rest of the state. NYS DEC recommends the planting of native species and prohibits or regulates the introduction of invasive species. <https://www.dec.ny.gov/animals/99141.html>

Site Selection:

1. Sites should be inspected prior to planting. Avoid potential conflicts with utilities, buildings, lines of sight and other infrastructure. Other above ground characteristics to consider are light, slope, wind and salt exposures. The soil at the planting site should be analyzed and tested for pH, structure, texture, density, nutrients, and percolation. Tree species selected for planting should be appropriate for the selected planting site. Please remember, planting a tree is a long-term investment. Proper site selection/preparation and species selection is vital to a successful project.
2. No tree with a mature trunk diameter greater than 12 inches will be planted in a tree lawn less than 3 ft. wide; a planting space of at least 50 sq. ft. is recommended.
3. Trees will not be planted within 30 ft. of an intersection or 15 ft. of driveways and alleys.
4. Trees will not be planted within 10 ft. of utility poles or hydrants.
5. Trees should be spaced an appropriate distance apart. For street trees: large trees (mature height greater than 60 ft.) minimum of 45 ft. apart, medium trees (mature height between 30 ft. and 60 ft.) minimum of 35 ft. apart, small trees (mature height less than 30 ft.) minimum of 25 ft. apart.
6. Only trees with mature heights less than 30 ft. should be planted under or near power lines.

Wrong Trees, Wrong Places

Better Choices

Source: Arbor Day Foundation

Tree Species Selection:

1. Species will be selected to fit the planting site, taking into consideration soils, rooting space, overhead space, adjacent utilities and buildings, drainage, and other site conditions.
2. All species need to be appropriate for the hardiness zone in which they are located.
3. All trees used will be true to name. Size and grading standards will conform to the American Standard for Nursery Stock as established by AmericanHort (<https://www.americanhort.org/education/american-nursery-stock-standards/>).
4. It is recommended that no species make up more than 10% of the entire urban forest population.

Planting Standards:

1. Inspect nursery stock at time of delivery for damage and poor quality.
2. Planting holes will be dug a minimum of 12 inches larger than the diameter of the root system or root ball. Preferably, the hole should be two to three times as wide as the root ball.
3. Trees will be planted no deeper than previously grown with allowance for settling. The root flair should be at or slightly above ground level.
4. Strings and twine will be removed from trunk of tree. Burlap and wire baskets will be removed or rolled down into hole.
5. Backfill with existing soil when suitable. Avoid using excessive amounts of organic matter.

6. When sensitive species are exposed to direct sun, wrap lower trunk with a tree wrap. Remove wrap after first growing season.
7. Bark mulch will be applied around the tree, up to 3 inches deep, in a circle which extends beyond the planting hole. Mulch should not touch trunk above root flair.
8. Only dead, damaged or poorly located branches will be removed using proper pruning techniques.
9. All bare root trees (and balled and burlapped trees in exposed, windy areas) will be staked or guyed to keep them upright. Use commonly accepted staking techniques. Stakes will be removed approximately one year after planting.
10. Newly planted trees will be watered at the time of planting, and for best results, water, soaking the root zone once per week, barring rain, and more frequently during hot weather until they are established.
11. In caring for and handling trees prior to planting, all precautions customary in good trade practice will be taken.
12. A minimum one-year warranty is recommended for trees planted by a contractor.

Five Year Tree Maintenance:

A detailed, written tree maintenance plan must be developed, including the following components:

1. Grantee will need to inspect the trees every six months to evaluate general health, disease and insect problems.
2. Grantee will need to treat disease and insect problems as needed to maintain good tree health.
3. Grantee will need to water during the growing season as needed.

SIZE OF NURSERY STOCK	IRRIGATION SCHEDULE FOR	
	VIGOR	SURVIVAL
Less than 2 inch caliper	Daily: 2 weeks Every other day: 2 months Weekly: until established	Twice weekly for 2-3 months
2-4 inch caliper	Daily: 1 month Every other day: 3 months Weekly: until established	Twice weekly for 3-4 months
greater than 4 inch caliper	Daily: 6 weeks Every other day: 5 months Weekly: until established	Twice weekly for 4-5 months

Source: Planting and Establishing Trees- Gilman and Sadowski, University of Florida IFAS Extension

4. Grantees will prune the trees as needed to remove dead, damaged or poorly located limbs using accepted practices of the industry.
5. Grantees will remove planting stakes and guy wires within the first year.

APPENDIX 4 - Sample Municipal Endorsement

The Municipal Endorsement is for non-municipal projects located on municipal property and must accompany the completed application. (Acceptable municipal endorsement for use when applicant is not a municipality.)

Resolution No. _____

WHEREAS, the (applicant name) is applying to the New York State Department of Environmental Conservation for a reimbursement project grant under the Urban and Community Forestry (UCF) Program to be located (insert location), a site located within the territorial jurisdiction of this (Board, Council or Legislature); and

WHEREAS, as a requirement of the UCF program, said (type of applicant) must obtain the “approval/endorsement of the governing body of the municipality in which the project will be located,”

NOW, THEREFORE, be it resolved that the (Board, Council or Legislature) of (municipality) hereby does approve and endorse the application of (applicant name) for a grant under the Urban and Community Forestry Program for a project known as (project title) and located within this community.

(Date of Adoption and Certification of Clerk)

APPENDIX 5 – Work Plan Sample

PROJECT NAME: Tree Inventory & Community Forest Management Plan

CONTRACTOR SFS PAYEE NAME: Town of Anytown

CONTRACT PERIOD: From: 9/1/23 TO: 8/31/23 Note: Enter a 2-year contract term as a place holder

Project Summary: Provide a high-level overview of the project, including the overall goal and desired outcomes.

Even though Grants Gateway says to provide a high-level overview of the project, for this grant, use this Workplan Summary to describe the entire project. It may be helpful to copy and paste from the answers provided in the previous questions. Include what work will be done and by whom, partner roles, outreach and education, and how all requested grant funds will be spent. This becomes part of the contract if awarded.

Work Plan Properties

This is a sample of potential Objectives, Tasks and Performance Measures. These should be customized to your project. Also see the Work Plan Worksheet in the Pre-Submission Uploads section of Grants Gateway.

Objective

1. Inventory trees in six town parks & along the rights-of-way and all town parks.

Tasks

1. Conduct tree inventory in parks and along cul-de-sacs - The inventory shall include trees within the right-of-way and all town parks. The tree inventory will contain the following information:
 - a. Column headings and description of column content/codes
 - b. Diameter at breast height (inches)
 - c. Tree species (genus and common names)
 - d. GIS/GPS location + street address
 - e. Crown width
 - f. Tree health and hazard tree identification/emergency storm response
 - g. Potential tree planting sites

The timeline for this task is 1-2 months during the growing season.

Performance Measures

1. Final inventory - Compile tree inventory information, format in i-Tree software and provide report on CD or a thumb drive to NYSDEC and the Town of Anytown.

The timeline for this task is 1 month upon completion of the inventory.

Objective

2. Prepare a community forest management plan

Tasks

1. Prepare management plan - Consultant will prepare a forest management plan that will contain, at minimum, the following items:
 - a. The development of budgets and work plans including timelines and tasks to meet that vision
 - b. The use of the tree inventory which identifies management needs i.e. pruning rotations, removal implementation, prioritization of work load
 - c. Storm preparedness and response planning
 - d. Invasive species preparedness and response
 - e. Planting plan to address the unique characteristics of the project location, such as species diversity; understory plantings; erosion control and brownfields that could be impacted with planting and would address local needs.
 - f. Urban forest environmental cost-benefit analysis of environmental issues such as water quality, air quality, reduce urban heat island effect, energy efficiencies, storm water management, health
 - g. Recommend creation and/or use of a community tree board and designate their activities. The timeline for this task is 3 months. Performance Measures
2. Management Plan - Consultant to submit hard copies. The Town & NYSDEC will also receive a digital copy of the plan as required in the contract. This will be provided at the end of the three-month inventory & report process.

Objective

3. Partnerships

Tasks

1. Partnerships - A staff person will be assigned to manage the tree inventory and will use the management plan as guidance for the Town's annual planting and maintenance projects.
2. The Tree Commission will use the inventory to help it choose tree locations and species for its Arbor Day plantings in an effort to increase the diversity of tree species in the town.

Performance Measures

1. Partnerships - Report on plans for an event during Arbor Day. Photos, press or narrative.

Objective

4. Outreach & Education

Tasks

Outreach & Education

1. Newspaper press release in the local weekly column Tree Inventory & CFMP about the Town's plans to inventory its trees and develop a management plan
2. A feature story on the company that is doing the inventory, what the inventory includes, why it is important, and where in the town it is occurring, etc.
3. A presentation on the inventory results and an analysis of the benefits of trees to the community by the tree service consultant to the Town Board at a televised meeting.
4. Prior to developing the plan, at least one community forum will be held for ideas and suggestions for maintaining and expanding our community forest, as well as interviews/ discussions with several community groups, the tree commission and town leaders about the specifics of the plan.
5. The tree commission will also promote the inventory information as part of its future Arbor Day activities through press releases, posters, radio and local TV.

Performance Measures

1. Outreach & Education - Send copies of press, links to TV and narrative of media generated by the grant and subsequent work.
2. Photos of Arbor Day and/or narrative.

Objective

5. Long Term Support and Benefits

Tasks

Long Term Support and Benefits for the next five years

1. Share Inventory and CFMP with the Town's Tree Commission for future planting options and locations.
2. Town's volunteer tree commission can incorporate public participation into the annual tasks; for example, establishing tree stewards for the individual cul-de-sacs, setting up a formal memorial tree program, public information sessions on the threat of invasive species, Arbor Day events and tree plantings.

3. Grow our community forest, Town of Anytown Tree Inventory & Community Forest Management Plan increasing the overall environmental benefits that trees provide to our air, water, wildlife, and health.

Performance Measures

1. Long term support - Report on future plans at the end of the project.
2. Inventory – Tree Commission will work with DPW to update the tree inventory on an ongoing basis for the next 5 years.
3. Management Plan – results of the CFMP will be used by the Village to prioritize risk assessment, tree removals and pruning jobs and also vacant planting areas.
4. Arbor Day events and the pursuit of new urban forestry grants will continue.
