I. INTRODUCTION

The New York State (NYS) Division of Criminal Justice Services (DCJS) seeks proposals for grants to fund the purchase of Livescan fingerprint processing equipment. Approximately \$500,000 will be made available to probation departments and other law enforcement agencies as described below. There is a required 50% match for grants funded through this Request for Proposals (RFP), which acknowledges the shared benefit and responsibility local agencies have related to this critical law enforcement function.

DCJS enhances public safety by providing resources and services that inform decision making and improve the quality of the criminal justice system. DCJS is a multi-function criminal justice support agency with a variety of responsibilities, including collection and analysis of statewide crime data; operation of the DNA databank and criminal fingerprint files; administration of federal and state criminal justice funds; identifying and funding programs that reduce crime, recidivism, and victimization. Additionally, DCJS administers the state's Sex Offender Registry. DCJS conducts research on critical criminal justice issues and provides training, legal guidance and regulation to the State's law enforcement, community corrections and prosecution communities.

DCJS is committed to providing programs that improve the effectiveness of New York's justice system. Proposals will be rated and selected for funding consistent with the best interest of the state. Applicants are encouraged to demonstrate in their response to this solicitation how their proposal supports New York's commitment to public safety.

II. ELIGIBILITY AND FUNDING GUIDELINES

A. Eligibility

All local probation departments from jurisdictions with populations of less than one million (1,000,000) and other local law enforcement agencies identified in Appendix: *List of Eligible Law Enforcement Agencies*, are eligible to apply. Additional eligibility criteria is as follows:

1. Individual agencies which currently submit fingerprint data directly to DCJS, or intend to do so going forward, and **DO NOT** host a server through which other departments submit fingerprint data.
2. Agencies which **DO** host regional servers through which other departments submit fingerprint data. These agencies can file a joint application that includes ALL departments that submit through the regional server. If ALL departments that utilize the regional server are not included in the application, the host agency must commit to continue hosting the current regional server for one year from the date of contract execution to be considered for funding.
3. All non-probation Law Enforcement applicants must be current with the required submission to DCJS of their Uniform Crime Reports (UCR) or Incident-Based Reports (IBR).

B. Availability of Funds

Approximately \$500,000 is available for grants to support the purchase of Livescan fingerprint processing equipment by eligible applicants. Applicants may seek up to \$10,000 in grant funds per Livescan unit which may include reasonable software and installation expenses.

All awards are subject to the availability of appropriated funds and any modifications or additional requirements that may be imposed by state or federal law. Applicants also should anticipate that awards under this initiative are **one-time awards and accordingly should propose project activities and deliverables that can be accomplished without additional funding**. Agencies receiving awards should plan for the institutionalization of the project after grant funds are no longer available, including supporting any ongoing training needs and/or equipment maintenance and warranty costs.

C. Eligible Costs and Equipment Requirements

Permissible uses of grant funds shall be strictly limited to:

- The purchase and installation of Livescan equipment, including software and installation, at new locations;
- The purchase and installation of Livescan equipment, including software and installation, to replace existing equipment; and/or
- Upgrading from Cardscan to Livescan equipment, including software and installation.

Applicants may apply for more than one Livescan unit, but must provide sufficient justification that multiple units are necessary due to large arrest volumes and/or the need for new devices at different locations. Funding priority will be given based on the applicant's demonstration of need for the equipment requested.

The Livescan units requested are required to include Palm Capture functionality. Functionality for scars, marks, and tattoos; as well as digital signature capture is highly recommended, but not required. DCJS requires inclusion of the following Types of Transactions (TOTs) in the Livescan configuration: CARAAR for arrest submissions, CARJDR for juvenile arrests, CARCIR for criminal inquiries (ID purposes only). In addition, the following TOTs are recommended, depending on applicant needs: CARSOR if the agency submits sex offender updates, DEUDEC for dead submissions, CARSUP if Parole or Probation share your Livescan(s), FBICRM for resubmissions to the FBI, and CARADM for correction admissions. (For additional information including definitions of these Types of Transactions, please see the New York State Criminal Justice Electronic Biometric Transmission Standard, Section 3.1, at <http://www.criminaljustice.ny.gov/advtech/ebts.pdf>).

Equipment purchases must meet all procurement guidelines of federal, state, and local governments, as applicable.

D. Matching Funds

There is a 50% cash match for this RFP. The match requirement was established to acknowledge the shared responsibility and benefit local agencies have in supporting this critical law enforcement function. Applicants must identify the source of the match and describe how match funds will be used in the budget. An example of one such match is as follows:

An applicant submitting a total budget of \$20,000 must identify the source of the 50% match, which is \$10,000. The total of the application budget must include the grant funds requested by the applicant and the 50% cash match amount. DCJS grant funds cannot account for more than 50% of the cost of equipment purchases (including software and installation).

Match funds are subject to the same documentation and reporting requirements as grant funds provided through the Livescan grant program.

E. Ineligible Costs

Permissible uses of grant funds shall be strictly limited to the purchase and installation of Livescan equipment (including software) or to upgrade from Cardscan to Livescan equipment. Any other costs, including upgrades not related to the purchase of new or replacement equipment or functionality not described under Eligible Costs, Section II.C, are ineligible.

III. EVALUATION AND SELECTION

Tier I Evaluation – Threshold Pass/Fail

The Tier I Evaluation assesses whether Proposals satisfy minimum “pass/fail” criteria for funding. All proposals will be initially screened by DCJS reviewers to determine their completeness using the following criteria:

- Proposal was received by the published deadline;
- Applicant is eligible as defined by this solicitation;

The submitted proposals shall include:

- Answers to all questions as presented;
 - Budget detail and justification provided in GMS itemizing operating expenses in support of the program;
- Completed Program Work Plan, according to instructions provided; and
 - All attachments and required documents.

Tier I Evaluation criteria will receive pass/fail ratings. Any proposal that does not meet each of these conditions may be subject to disqualification from further review.

Tier II Evaluation – Evaluation and Scoring

DCJS staff reviewers will evaluate Proposals that successfully pass the Tier I Evaluation. A standard rating tool will be used to score responses to questions provided in the application (see *Questions* section for additional information). The maximum score will be 50 points. Each response will be scored and all scores will be totaled, resulting in an overall score. The final score will be determined by averaging Team Reviewers' overall scores for each proposal. DCJS may, at their discretion, request additional information from an applicant as deemed necessary. Also, in the event of a substantial scoring disparity of total available points, an additional reviewer may rate the affected proposals and the average of all of the scores will determine the final average score of the proposal. In the event of a tie score among applicants, and where both applicants cannot be selected, an additional reviewer will rate the affected proposals and the average of the scores will represent the final score. The actual award amount will be dependent upon the quality of the proposed project and its relation to the requested budget, and the demonstration of need for the number of units requested.

Due to the limited availability of funds, priority for funding will be given to proposals from probation departments demonstrating the greatest need, law enforcement agencies from jurisdictions with the greatest average number of arrests per year from 2014-2016 (as reported to the DCJS Computerized Criminal History database), and law enforcement agencies seeking to equip new locations that averaged at least 50 arrests per year in 2014-2016. However, please note that all local law enforcement agencies identified in Appendix: List of Eligible Law Enforcement Agencies are eligible to apply to this RFP.

Tier III Evaluation

The Tier III Evaluation assessments will be conducted by designated DCJS executive staff. The Tier III Evaluation will select applicants for funding and determine the award amount through consideration of the Tier II Evaluation scoring and comments, strategic priorities, available funding and best overall value to New York State.

Final award decisions will be made by DCJS in accordance with the best interests of the State. Nothing herein requires DCJS to approve funding for any applicant.

The DCJS' Executive Deputy Commissioner or his or her designee will make final decisions regarding approval and individual award amounts based on the quality of each submission, the recommendations of the reviewers and specific criteria set forth in this solicitation.

IV. RFP REQUIRED QUESTIONS

RFP Required Questions

The following questions must be answered in full and submitted as an attachment in the DCJS Grants Management System (GMS) as instructed. Please prepare the answers to these questions in a Microsoft Word Document using Arial, 11 point font, 1.5 spacing, and attach to GMS using the *Attachments* module. GMS instructions are located in Appendix: *DCJS Grants Management System (GMS) Instructions and Helpful Hints* of this RFP.

A numerical rating will be awarded based on the **completeness** of the response to each of the following questions, as well as completion of the budget module in GMS. The maximum score is **50 points**. A minimum score of 70 percent or 35 is necessary to be eligible for funding. Any and all sub-sections must be answered.

Program Specific Questions (#1 and #2) (40 points total)

 - Describe the physical location of the project. If multiple Livescan units are being requested for use at different locations, describe why a unit is needed at each location.
 - ***When will the project operate?*** Provide a timeline for identifying equipment, ordering, installation and operation.
 - ***Include a plan*** to ensure the institutionalization of the project once funds are no longer available such as on-going training, equipment maintenance, and warranty issues.
 - **Describe the status of current Livescan/Cardscan Equipment or lack thereof.**
 - Provide the number and type(s) of equipment currently in use at your department/agency.
 - Provide a description of any malfunctioning or outdated equipment and how those issues impact the department/agency's ability to submit fingerprint data efficiently.

Budget Questions: 0-10 points total

Complete the budget in the GMS budget module.

Provide an overall budget in GMS that supports the project presented. The detailed budget lines should be directly related to project implementation and must be sufficiently justified. If requesting more than one Livescan unit, the applicant should justify the need for multiple devices. Please describe the source of matching funds (i.e., seized asset account; local budget).

The total of the application budget must include the grant funds requested by the applicant and the 50% cash match amount. For example, applicants requesting \$20,000 through the grant must include \$10,000 in the proposal budget which will be provided by the applicant. Applicants who are applying as host agencies and plan to include funds from the hosted agency as part of the applicant match, must indicate this in the budget.

For regional server host agencies submitting a joint application on behalf of all departments who submit data through their server, the budget should include a budget line under the "All Other Expenses" category for each department supported by the grant application.

Disposition of Allocations

DCJS reserves the right to reject Proposals, deny awards, or defer Proposals for future consideration based on insufficient information in the application, lack of accompanying documentation, the inappropriateness of the project proposed, an organizational history of unsuccessful projects of a similar nature, or a history of contract non-compliance.

Revocation of Funds

Funds awarded to an applicant who does not implement an approved project within 90 calendar days of the contract start date may be revoked and redistributed at the discretion of the Executive Deputy Commissioner of the DCJS or his or her designee.

General - Complete the text screens and press save.

Participants/Contacts - Complete the text screens and press save.

Click on "Add Participant" and in the search prompt that appears type in your agency name. This should take you to a list, find your agency, and click in the blue section of your agency name. In the event your agency is not listed, click the "New" button to add your agency to our database. Please complete all required information on the screen, including the Employer Identification Number (EIN) before you SAVE the entry. GMS will only allow one attempt then locks the entry to edits.
