New York State Department of Environmental Conservation Justice Grant Application Webinar was held on

Date: Wednesday, November 30, 2016 at 1:30 pm, Eastern Daylight Time

This webinar walked you through the grant application process for the 2016 Environmental Justice Community Impact Grant Program (DEC01-EJ-2016).

Applicants unable to participate in the above noted webinar have the option to view the webinar training at their convenience at the following link: [https://www.youtube.com/playlist?list=PL3F0L\\_HJ7v4iJT90jfoTdvPmqJD5XUzPs](https://www.youtube.com/playlist?list=PL3F0L_HJ7v4iJT90jfoTdvPmqJD5XUzPs)

# NYSDEC Regions

## **I. GRANTS REFORM**

The State of New York launched a web-based grants management system, Grants Gateway, in 2013 to improve the way grants are administered by the state. The Grants Gateway allows not-for-profit organizations to browse, search and review anticipated and available grants opportunities. Before applying for an Environmental Justice Community Impact Grant, not-for-profits must register and prequalify in the Grants Gateway. Prequalification is a system that allows organizations to complete many of the administrative tasks that are included in applying for grants prior to the actual grant application process. Prequalification allows for the early identification and correction of any deficiencies or gaps in materials before competing for an RFA. Once organizations are registered in the Grants Gateway, they can begin the prequalification process.

Once prequalified, non-profits can store all of their documents and information in a secure data vault. Only the non-profit and other state agencies will have access to the information. This will eliminate redundant submission of this data for each NYS grant opportunity. All prequalification application information will be maintained in the vault for up to three years.

For instructions on how to register for the Grants Gateway and to prequalify for upcoming grants, visit:  
<https://grantsgateway.ny.gov>

### **GRANTS GATEWAY REGISTRATION AND PREQUALIFICATION**

All NYS grant applicants must be registered in the NYS Grants Gateway to be eligible to:

- Apply for a NYS grant opportunity.
- Enter into a grant contract, an amendment to an existing contract or a letter of agreement.
- Apply for future grant payments.

In addition to registering, not-for-profit organizations must also complete the Vendor Prequalification process in the Grants Gateway to be considered eligible to apply for this grant opportunity. Government entities and public authorities are currently not required to complete the Vendor Prequalification Process.

### **CREATING ROLES IN THE GRANTS GATEWAY SYSTEM**

Once your organization is registered and prequalified in the Grants Gateway, the user with the delegated administrator role must create additional roles to initiate, complete and submit the application in the Grants Gateway. Refer to Section 4.2 of the “Grantee User Guide” located on the Grants Reform website at <http://grantsreform.ny.gov>

for instructions on creating user roles in the Grants Gateway system. This step MUST be completed to submit an application in the Grants Gateway.

Registration and prequalification instructions are provided on the following pages. Additional registration and prequalification information, including a video tutorial, is available on the Grants Reform website at  
<http://grantsreform.ny.gov>

## **GRANTS GATEWAY REGISTRATION INSTRUCTIONS**

Registration is NOT an online process. Register now to allow time for processing!!

- 1.) On the Grants Reform Website at <http://grantsreform.ny.gov> download a copy of the Registration Form for Administrator.
- 2.) Complete the form according to the instructions provided. You must sign and notarize the completed form.
- 3.) Mail the signed and notarized original form to: NYS Grants Reform, 99 Washington Avenue, Room 1530, Albany, NY 12210-2814.
- 4.) After the form is received and reviewed, you will be provided with a username and password allowing you to access the Grants Gateway.
- 5.) Log into the Grants Gateway at <https://grantsgateway.ny.gov>. You will be prompted to change your password at the bottom of your profile page. Enter a new password and click the SAVE button located on the top, right-hand side of the page.

If you have previously registered and do not know your username, please email [grantsgateway@its.ny.gov](mailto:grantsgateway@its.ny.gov). If you do not know your password, please click the *forgot password* link from the main log in page and follow the prompts.

## **NOT-FOR-PROFIT PREQUALIFICATION INSTRUCTIONS**

Pursuant to the New York State Division of Budget Bulletin H-1032, dated June 7, 2013, New York State has instituted key reform initiatives to the grant application and contract processes. These initiatives require not-for-profit organizations to complete the Vendor Prequalification process to be considered eligible to apply for a grant.

Below is a summary of the steps to complete the prequalification requirements. The Vendor Prequalification Manual on the Grants Reform website at <https://grantsgateway.ny.gov> provides additional information and instruction.

- 1.) Complete your Prequalification Application.
  - Log into the Grants Gateway at <https://grantsgateway.ny.gov>. If this is your first time logging in, you will be prompted to change your password at the bottom of your Profile page. Enter a new password and click the SAVE button located on the top, right-hand side of the page.
  - Click the *Organization(s)* link at the top of the page and complete the required fields including selecting the State agency you have the most grants with. This page should be completed in its entirety before you SAVE. A *Document Vault* link will become available near the top of the page. Click this link to access the main Document Vault page.
  - Answer the questions in the *Required Forms* and upload the *Required Documents*. This constitutes your Prequalification Application. Optional Documents are not required unless specified in this Request for Proposal.
  - Specific questions about the prequalification process should be referred to your agency representative or to the Grants Reform Team at [grantsgateway@its.ny.gov](mailto:grantsgateway@its.ny.gov).
- 2.) Submit Your Prequalification Application.
  - After completing your Prequalification Application, click the *Submit Document Vault* button located below the Required Documents section to submit your Prequalification Application for State agency review. Once submitted, the status of the Document Vault will change to *In Review*.

- If your Prequalification reviewer has questions or requests changes, you will receive email notification from the Gateway system.
- Once your Prequalification Application has been approved, you will receive a Gateway notification that you are now prequalified to do business with New York State.

## **Environmental Justice Community Impact Grant Program Information for Applicants**

The New York State Department of Environmental Conservation (DEC) Office of Environmental Justice (OEJ) will provide state assistance funding through the Environmental Justice Community Impact Grant program to community-based organizations for projects that address exposure of communities to multiple environmental harms and risks (“projects”).

### **I. GENERAL INFORMATION AND CONDITIONS**

#### **Application Deadline**

Grant applications must be developed and electronically submitted in the NYS Grants Gateway no later than **3:00 P.M. on February 28, 2017**. The Grants Gateway will not allow an application to be submitted after the 3:00 P.M. deadline. Applicants will be unable to make changes to a submitted application after the deadline has passed. Applicants are encouraged to finish the online application at least one-week prior to the deadline, allowing time to double check that all mandatory documents have been completed and to address any technical errors. Paper applications are no longer accepted by DEC.

#### **Application Submission**

All applicants must apply through the NYS Grants Gateway. This includes answering all program questions and uploading completed and required program documents and forms. Paper applications will NOT be accepted for this grant opportunity.

#### **Application Questions and Answers**

Please email all Community Impact Grant questions to the Office of Environmental Justice at: [justice@dec.ny.gov](mailto:justice@dec.ny.gov). Questions regarding this grant opportunity will be accepted by DEC until C.O.B. **February 17, 2017**. All questions and answers will be uploaded in the Grants Gateway for all applicants to view.

#### **Available Grant Funding**

DEC will offer \$3,078,000 in state assistance funding for this 2016 grant cycle.

#### **Minimum and Maximum Award Amounts**

Minimum grant award amount is **\$2,500**

Maximum grant award amount is **\$50,000**.

#### **Match Funds**

Matching funds are not a requirement under this grant opportunity.

#### **Application Limit**

Applicants may submit up to three applications. However, the applications may not be for the same project or project location.

## **I. APPLICANT ELIGIBILITY REQUIREMENTS**

### **Eligible Applicants:**

1. An eligible applicant must be a not-for-profit corporation (NFP) community-based organization, or a community-based organization may partner with a NFP that will serve as their fiscal sponsor. For this grant opportunity, a NFP is subject to New York State's Not-For-Profit Corporation Law, is qualified for tax-exempt status under Section 501(c)(3) of the Federal Internal Revenue Code, has an IRS 501(c)(3) determination letter to be incorporated in New York State and is current in their charities reporting requirements with the Office of the Attorney General.

**All NFP applicants must be registered and prequalified in the NYS Grants Gateway by the due date of this application to be considered eligible for this grant opportunity.**

A NFP serving as a fiscal sponsor to an eligible community-based organization must provide, at the time of application, a fiscal sponsor agreement between the community group, otherwise the application will be disqualified in the application pass/fail review. The fiscal sponsor must assume the responsibility for submission of the on-line grant application and must sign a contractual agreement with DEC on behalf of the community group should grant funding be awarded. The NFP fiscal sponsor is not required to have members in the affected community.

### **Fiscal Sponsor Agreement (as applicable)**

A fiscal sponsor letter of agreement must be uploaded with the application by the application due date (if applicable). The letter of agreement must be between the qualifying, eligible community group and the NFP that will serve as the community group's fiscal sponsor. The agreement must state the NFP will serve as the fiscal sponsor and will assume the responsibility for the project application, the performance of work consistent with this RFA and execution of a State of New York Master Contract for Grants or Letter of Agreement. **Any application that does not include a required fiscal sponsor agreement will be disqualified in the eligibility pass/fail review.** The letter of agreement should be addressed to the NFP applicant serving as the fiscal sponsor.

2. For purposes of this grant application, a "community-based organization" is defined as an organization that satisfies and meets **all** of the following criteria:
  - a. Serves the residents of an area equal to or smaller than a town or city outside of New York City, or an area equal to or smaller than one of the five boroughs within New York City; **and**
  - b. Has a total annual revenue that does not exceed \$3,000,000, based on the applicant's IRS Form 990 filing from the previous year; **and**
  - c. Cannot have its charter revoked or otherwise be dissolved through the action of another organization; **and**
  - d. Is able to enter into legal agreements independent of any affiliated not-for-profit organization, government body, university or other entity that would be ineligible to apply for this grant; **and**
  - e. Focuses on addressing the environmental and/or public health problems of the residents of the community that is impacted by the multiple environmental harms and risks that are the focus of the project (the "**affected community**"); **and**
  - f. Has its primary office location in the affected community; **and**

- g. Has more than 50 percent of its members residing in the affected community, or more than 50 percent of the people served by the applicant community group residing in the affected community. (A NFP serving as a fiscal sponsor is not required to have members in the affected community.); and
- h. The applicant (and partner NFP fiscal sponsor, if applicable) must declare that it has not caused or contributed to the environmental harms or risks that are to be the subject of the proposed project. **(Note: A declaration can be viewed on the last page of this RFA. The declaration must be signed and uploaded in the Grants Gateway.)**

### **Ineligible Applicants**

Entities that are not eligible to apply and receive funding under this grant program are: individuals; universities; government bodies; water districts or similar entities; large non-governmental organizations such as a county (outside New York City), regional, state or national environmental groups and organizations.

An ineligible organization may be involved in a proposed EJ project by partnering as a subcontractor for an eligible organization.

## **II. PROJECT ELIGIBILITY REQUIREMENTS**

The Community Impact Grants are a continuation of the Environmental Justice (EJ) grants awarded in previous years. Project proposals and work plans MUST address ALL of the following criteria:

(1) Project proposal must provide a description of communities' exposure to multiple environmental harms and risks. Multiple harms and risks can occur in several ways:

- (a) a community has multiple sources of environmental harms and risks;
- (b) a community has multiple sources that contribute to a single environmental harm or risk;
- (c) a community experiences health impacts or risks from a single source of environmental harm (air and water contamination from a single source);

(2) Project proposal must be located within the EJ community served by the eligible applicant organization (see community demographics on page 16); **AND**

(3) Project proposal must include a research component that will be used to expand the knowledge or understanding of the affected community.

*NOTE: There are many possible examples of multiple harms and risks. If you are unsure whether the situation in your community can be categorized as multiple harms and risks, please call the Office of Environmental Justice at 1-866-229-0497 or 518-402-8556.*

**Successful projects DEC has previously funded through Community Impact Grants have included the following:**

- An inventory of environmental harms and risks in the community such as: inventory of industrial, municipal or commercial facilities in the community; identification of related environmental or public health harms and risks and development of a community education program to address some or all of the harms and risks.
- Mobile source emission tracking and monitoring (traffic counts, diesel vehicle idling counts) and development of a program to address some or all of the harms and risks.
- Demonstration projects for green infrastructure or energy conservation, i.e., green rooftops, urban tree planting, energy conservation or alternative energy projects. The data from such demonstration projects must

be used to expand the community's knowledge and understanding of how such projects may mitigate exposure to environmental impacts.

- Projects to identify and reduce harms and risks to subsistence fishing populations that use waters restricted for fish consumption, i.e. research habits of fishing populations, develop means to educate populations about associated harms and risks and recommend means to provide safe fishing access to such populations.
- Projects to identify industrial, commercial or municipal processes that result in pollution which impacts the community, research these processes and study and develop potential methods to reduce such exposure.
- Projects to identify lead hazards for children and pregnant women, prevent lead related housing risks and/or promote lead safe work practices by homeowners and contractors involved in residential renovation and remodeling.
- Projects to identify sources of household hazardous waste within the affected community, identify local hazardous waste facilities, educate community residents on proper disposal and alternative non-hazardous products such as green cleaning products and encourage use of alternative non-hazardous products.
- An inventory of open space in the affected community and construction of community gardens or other park-like features to demonstrate beneficial use of that open space.
- Projects that encourage a connection to nature and the urban environment for inner-city students, develop hands-on stewardship projects for students to help them understand natural processes, and inventory community environmental harms and risks.

For more information on projects funded by the EJ Grant program in previous years, see the DEC Environmental Justice Community Impact Grant Program website at: <http://www.dec.ny.gov/public/31226.html>

**For further project guidance, below is a list of additional project suggestions community organizations can focus on.**

#### *Addressing Water Impacts:*

- Projects can include conducting a community survey to determine the location of waterbodies that have been diverted into a culvert, pipe or drainage system. This research can be used to build public interest in daylighting streams - redirecting them into above-ground channels - to restore them to a more natural state.
- Floatables (litter) and pathogens (animal feces) are problematic in storm water. A potential project can include conducting a campaign to educate community residents on the negative effects and how picking up litter and cleaning up after animals can improve waterbodies close to home.

#### *Addressing Organic Waste Impacts:*

- Local community composting projects (equipment training, education).
- Local food diversion projects such as food pantry and soup kitchens use and support assistance including equipment, transportation to and from, storage, routing evaluation, and collection logistics.
- Local dispersion of compost including community education of available materials and storage if needed.
- Backyard composting diversion including revitalize backyard composting efforts by providing education, bins and workshops.

#### *Addressing Air Impacts:*

- Sampling (mobile source emissions) street-level air quality in an urban neighborhood park.
- Air sampling of neighborhood impacts from local sources using biomass fuel for heat.
- Air sampling in vicinity of frequently used diesel generators.
- Air sampling of neighborhood electric generator (<79.9 MW) used during peak usage periods of electricity.
- Neighborhood air sampling in the vicinity of:
  - multiple auto body shops (volatile organic compounds)
  - waste transfer station (particulate matter and/or volatile organic compounds)
  - sewage treatment facility (hydrogen sulfide)

- compost facility
- asphalt facility
- landfill
- high traffic density and/or traffic congestion
- metals recycling facility
- shipping ports
- airports
- major freight corridors
- Assessment of air quality near multiple diesel sources such as bus and train depots.
- Community sampling of volatile organic compounds near natural gas pipeline compressor stations.
- Neighborhood education program on anti-idling and community efforts to find solutions for idling vehicles which transport refrigerated goods.
- Collaborative efforts to resolve odor and/or noise issues between neighborhood residents and local industrial sources. For example, resolution may involve installation of noise wall barrier, tree planting or restriction on times for idling.
- Community project researching best walking or biking areas in terms of air quality for children. Existing air quality data from the NYC Community Air Survey could be used.

*Addressing Green Infrastructure Impacts:*

- Tree planting
- Enhanced tree pits for storm water capture
- Green walls
- Green roofs
- Naturalized landscaping
- Swales
- Rain gardens and rain barrels
- Projects that enhance wildlife habitat, e.g., connecting greenspaces
- Riparian restoration
- Permeable pavement
- Community gardens
- Urban wood waste utilization
- Natural coastal protection

*Addressing Climate Change Impacts:*

- Programs to improve the energy performance of multi-family dwellings by supporting the efforts of building owners, tenants and community leaders to access technical and financial support. This could include identifying barriers to participation in existing programs or developing effective materials to connect communities to programs and increase access. Areas of focus could include energy efficiency and weatherization, smart grid, clean (low or no emission) energy such as shared solar, or indoor air quality in the context of apartment buildings.
- Programs to reduce emissions and air pollution from transportation, increase access to low emission transportation or integrate low or no-emission options into planning for community resilience. Some examples are educational and outreach campaigns or organizing community involvement in transit or transit-oriented development plans, multi-modal transportation programs, programs to expand access to electric vehicles and charging infrastructure or plans to integrate electric vehicles into resiliency planning.
- Assessments or educational campaigns focused on the health or social impacts from air pollution or climate change in the affected communities.

- Inventories of energy use or air emissions from sources such as fuel oil and wood boilers, diesel-powered electricity generators or high-volume vehicle traffic areas.

DEC encourages applicants to be creative and to seek assistance from other state agencies like the NYS Energy Research and Development Authority (NYSERDA), local governments, utilities or other outside parties on project ideas, partnerships and other available funding.

### **III. ADDITIONAL APPLICATION REQUIREMENTS AND INFORMATION**

Application reviewers will assess whether your proposed project is in compliance with state policies, including any applicable permit requirements. Please be sure to address the following application requirements and information when developing your application online:

#### **Project Expenditure Based Budget**

Applicants must complete an itemized expenditure budget in the Grants Gateway, including thorough details of the estimated project-related costs. Budget detail must clearly distinguish between costs to be claimed under the State grant share. A project's reasonableness of costs is at least 20 percent of the evaluation factor in the scoring; therefore, attention to budget accuracy will increase your project score. Applications that do not provide sufficient information to determine whether costs are eligible and reasonable will lose points in the application cost effectiveness evaluation and may receive a reduced grant award if funded. Applicants should review the cost-effectiveness evaluation criteria included in the last section of this RFA.

#### **Eligible Project Costs**

Applicants must complete an expenditure budget in the Grants Gateway and provide cost detail that includes only eligible project costs as defined below:

1. Contractual: Costs for the value of services provided by responsible, professional and technical personnel and consultants directly related to the implementation of the project. **Contractual staff time, including fringe benefits, paid to any individual person cannot exceed 30 percent of the total grant amount.**
2. Personal Service and Fringe: Cost of staff salaries, including fringe, directly devoted to the project. Itemize salaries according to job title and roles/responsibilities on the project. Grantees will be required to document time worked, tasks, pay ratio and payment. **Fringe benefits are limited to 15 percent of the staff salary. Paid staff, including fringe benefits, to any individual person cannot exceed 30 percent of the total grant award.**
3. Equipment: Costs for equipment (purchase or rental). Note that any equipment purchased with funding provided by this grant program cannot be sold, transferred or used for other purposes without written approval from DEC.
4. Communication Costs: Costs associated with communication directly related to informing the community about the project such as telephone services, postage, messenger, Internet service, printing, etc.
5. Travel: Expenses for any necessary travel required to carry out the project. Note that the EJ grant will not pay for travel to conferences or other professional meetings or any travel outside New York State.
6. Other: Other reasonable costs must be directly devoted to implementation of the project such as costs for the purchase, upgrade and maintenance of computer hardware and software required to implement the project, rental of meeting space, printing, postal, supplies and materials, and training costs related to training staff or volunteers that are required for the project.
7. Grant Administration Costs: Administrative costs incurred by a fiscal sponsor for administering the grant or assisting in the project. Costs claimed by the fiscal sponsor to administer the grant that are paid from EJ grant funds are

limited to management and recordkeeping of grant funds, preparation of grant contract documents and preparation and submittal of mandatory reports on funded projects as specified in the grant contract.

**Administrative costs cannot exceed 10 percent of the total grant award and should be clearly identified as ‘Administrative’ costs in the personal service budget category.**

### **Ineligible Project Costs**

The following costs are not eligible for grant funding or reimbursement under this program:

1. Costs that are paid from other state or federal funding sources are not eligible for reimbursement.
2. Indirect costs: indirect (overhead) costs such as: utilities, office rent, insurance).
3. Costs of preparing the EJ grant application.
4. Costs relating to the project that were incurred prior to the start date of the grant contract or after the termination date of the grant contract.
5. Legal costs related to the commencement of or participation in any action before a municipal, state or federal court or other agency.

### **Project Work Plan**

Applicants must complete a work plan in the Grants Gateway application that provides a clear overview of the project. Applications must include proposed project objectives and tasks associated with meeting each objective and the desired project outcome or deliverables accounted for in performance measures. The work plan should include anticipated time frames in meeting the proposed project objectives, tasks and deliverables (i.e., spring, summer, fall, winter). Project time frames must be consistent with the timeline an applicant will be required to upload in the Grant Gateway Program question section of the application.

*Note: A Work Plan ‘worksheet’ is available for applicants in the Grants Gateway (under Pre-submission uploads). The ‘worksheet’ can be downloaded and used as a tool to help applicants organize their proposed project objectives, tasks and performance measures. A completed ‘worksheet’ should NOT be uploaded back into the Grants Gateway. The intent of the ‘worksheet’ is to assist applicants in developing their application work plan in the Grants Gateway.*

### **Priority for Alignment with Regional Economic Development Strategies:**

Governor Andrew Cuomo directed the establishment of regional economic development councils, see website: <http://nyworks.ny.gov> to analyze the most significant business clusters in their respective areas. Any grants awarded by the State of New York shall take into consideration the recommendation of the relevant Regional Economic Development Council (REDC) or the Commissioner’s determination that the proposed project aligns within the regional strategic priorities of the region where the proposed project is located. This can be accomplished in one of the following two ways:

1. The Applicant may obtain a recommendation from the REDC stating that the proposed project aligns with priorities of the economic develop plan developed by the council. The recommendation must be included with the application to receive five additional points in the application review. **OR**
2. The Applicant can include a supplemental narrative in the application describing the economic benefits of the proposed project and how the project aligns with the strategies of the regional economic plan. The plans are available at the following web site <http://regionalcouncils.ny.gov> The narrative must be included with the application to receive additional points in the application review.

### **Community Demographics**

Projects that serve an EJ community, as defined in DEC *Commissioner Policy 29, Environmental Justice and Permitting* (available on DEC's website at: <http://www.dec.ny.gov/public/36929.html>) Applicants can identify minority and low-income communities in the following ways:

- Refer to maps on DEC's website showing these areas: <http://www.dec.ny.gov/public/899.html>.
- Refer to census tracts and block numbering areas which, as of the 2000 U.S. Census, had a poverty rate of at least 20 percent and an unemployment rate of at least 125 percent of the New York State average.
- Refer to census tracts and block numbering areas which, as of the 2000 U.S. Census, had a poverty rate of at least two times the poverty rate for the county in which the tract is located.
- Refer to the Empire State Development Corporation's (ESDC) designated environmental zones. Maps of *environmental zones* in each county can be found on the ESDC Brownfield Redevelopment website at <http://www.esd.ny.gov/BusinessPrograms/BrownfieldCleanupTracts.html>. Note: The ESDC has designated the Environmental Zones for the purpose of providing tax incentives for brownfield redevelopment. The Environmental Justice Community Impact Grants ARE NOT related in any way to the Brownfield Redevelopment tax incentives. The link to the ESDC Brownfield Redevelopment website is provided here only as a reference to the Environmental Zone maps.

In some cases, the community affected by the project may have a significant minority or low-income population that does not appear on one of the above mentioned maps. If this is the case, the applicant must provide authoritative documentation to support their community demographics in a single pdf upload in the Grants Gateway. In this context, "**authoritative documentation**" means any map, report or document issued by a local, state or federal government agency.

### **Project Area Map and Photos**

Applicants **MUST** upload a map showing the proposed project area as well as photographs to support the project application.

### **Letters of Support**

A letter of support is optional, but encouraged. Applications with a letter of support from an elected official, government body, educational institution or other organization with knowledge or expertise related to the proposed project will receive additional points in the evaluation and score process. Support letters must be uploaded as a single pdf file in the Grants Gateway by the application due date.

### **Department of Environmental Conservation Reserved Rights**

The Department of Environmental Conservation reserves the right to:

- Award additional and available funding for scored and ranked projects consistent with this grant opportunity.
- Make an award, in whole or in part, in accordance with the method of award, or withdraw the RFA at any time at the DEC's sole discretion.
- Not award funding to applications that have a final score below 70 points.

- Award a portion of a grant request based on the proposed work plan included in the application and ineligible project-related costs.
- Award only one application for funding in the event there are multiple application submissions for a single project or for pieces of a single project.
- Award only one application for funding from a single applicant.
- Award the next highest scoring application in the event a grantee fails to negotiate a grant contract with the Department within 60 - 90 days of a grant award.
- Monitor the progress of all grant awards and withdraw grant funding if the grantee fails to make significant and timely progress on the project or fails to receive the necessary permissions and permits for the project.

### **Notification of Award**

Applicants selected to receive a grant award will be notified in an official DEC award letter and in the NYS Grants Gateway.

### **State of New York Master Contract For Grants (MCG) or Letter of Agreement (LOA) Terms**

Dependent upon the amount of a grant award, a Master Contract For Grants (grant award above \$10,000) or a Letter of Agreement (grant award \$10,000 and below) must be approved by DEC. Both the MCG and the LOA will carry a three-year term, having an optional one-year period extension upon written justification from the grantee supporting the need for a time extension. All extension requests will be reviewed and approved by DEC. Failure to submit timely required MCG documents could cause a grantee to lose their grant award. Grantees can anticipate a MCG or LOA to have a start date approximately 60 - 90 days from the date of award notification. A grantee should not start their project until a MCG or LOA has been fully approved by DEC. Costs eligible for grant funding must be incurred within the term dates DEC assigns to the MCG or LOA.

Applicants should review and be prepared to comply with all MCG terms and conditions. The MCG and attachments can be reviewed and/or downloaded in the Grants Gateway EJ grant opportunity under the screen named 'Contract Document Properties'. The MCG attachments include:

- MCG Grants Face Page
- Standard Terms and Conditions (*NYS standard terms and conditions*)
- Attachment A-1 Program Specific Terms and Conditions (*Agency and Program specific terms and conditions*)
- Attachment B-1 Expenditure Based Budget (*project expense categories and detail*)
- Attachment C Work Plan (*project objectives, tasks and performance measures*)
- Attachment D Payment and Reporting Schedule (*claims for reimbursement and grant reporting provisions*)

Applicants selected to receive a grant award of \$10,000 or less will receive grant funding pursuant to a Letter of Agreement (LOA). The terms and conditions of the Letter of Agreement can be viewed and/or downloaded in the pre-submission area of the Grants Gateway.

**IMPORTANT NOTE:** Project related costs must be incurred within the term of the MCG to be considered eligible costs for funding. Contract payments will not be approved or processed by the DEC until a MCG or LOA is fully approved by the DEC. All agreements must be approved by DEC, and if applicable, the NYS Attorney General and the NYS Comptroller, prior to the start of the proposed EJ project.

Applicants should be prepared to comply with the following MCG requirements:

**Insurance Requirements**

Contractors will be required to carry appropriate insurance as specified in the MGC or LOA, Attachment A-1 Program Specific Terms and Conditions, and agree that each project consultant, project contractor and project subcontractor secures and delivers to the contractor appropriate policies of insurance issued by an insurance company licensed to do business in the State of New York. Policies must name the contractor as an additional insured, with appropriate limits, covering contractor's public liability and property damage insurance, contractor's contingency liability insurance, "all-risk" insurance and workers compensation/disability coverage for the project.

**Permit Requirements (if applicable)**

Contractors agree to obtain all required permits, including but not limited to, local, state and federal permits prior to the commencement of any project related work. The contractor agrees that all work performed in relation to the project by the contractor or its agents, representatives or contractors will comply with all relevant federal, state and local laws, rules, regulations and standards, zoning and building codes, ordinances, operating certificates for facilities, or licenses for an activity.

**State Environmental Quality Review (SEQR) Documentation (if applicable)**

With respect to the project, the contractor certifies that it has complied and shall continue to comply with all requirements of the State Environmental Quality Review Act (SEQRA). The contractor agrees to provide all environmental documents as may be required by the DEC. The contractor has notified, and shall continue to notify, the DEC of all actions proposed for complying with the environmental review requirements imposed by SEQRA.

**Vendor Responsibility**

Not-For-Profit contractors and/or subcontractors are subject to a vendor responsibility review by the state to ensure public dollars are being spent appropriately with responsible contractors. A vendor responsibility review may include a contractor and/or subcontractor to present evidence of its continuing legal authority to do business in NYS, integrity, experience, ability, prior performance and organizational and financial capacity. To enroll in and use the NYS VendRep System, see the VendRep System instructions available at [http://www.osc.state.ny.us/vendrep/vendor\\_index.htm](http://www.osc.state.ny.us/vendrep/vendor_index.htm) , or go directly to the VendRep System at <https://portal.osc.state.ny.us>

**Iran Divestment Act**

As a result of the Iran Divestment Act of 2012 (Act), Chapter 1 of the 2012 Laws of New York, a new provision has been added to the State Finance Law (SFL), § 165-a, effective April 12, 2012. By entering into a contract, the contractor certifies that it is not on the "Entities Determined To Be Non-Responsive Bidders/Offerers Pursuant to The New York State Iran Divestment Act of 2012" list ("Prohibited Entities List") posted on the Office of General Services website at: <http://www.ogs.ny.gov/about/regs/docs/ListofEntities.pdf> and further certifies that it will not utilize on such contract any subcontractor that is identified on the Prohibited Entities List. Additional detail on the Iran Divestment Act can be found in the MCG, Attachment A-1 Program Specific Terms and Conditions.

**Public Access and Useful Life**

Where EJ funding is awarded for green roofs and other green spaces such as community gardens, the contractor or the community group responsible for implementing the project must maintain and operate the green space for a period of not less than five years and allow appropriate public access to any facilities or amenities funded by the grant.

**Acknowledgment/Credits:**

The grantee must agree to give DEC appropriate credit for its support and shall note the following in all printed documents, video materials and /or program advertisements resulting from this work: "Funding for this project was provided from the NYS Environmental Protection Fund as administered by a grant from the New York State DEC Environmental Justice Community Impact Grant Program".

## **Minority/Women Business Enterprises (M/WBE) and Equal Employment Opportunities (EEO) Requirements**

The DEC is required to implement the provisions of New York State Executive Law Article 15-A and 5 NYCRR Parts 142-144 ("MWBE Regulations") for all state contracts with a value (1) in excess of \$25,000 for labor, services, equipment, materials or any combination of the foregoing or (2) in excess of \$100,000 for real property renovations and construction.

- Applicants subject to executing a future NYS Master Contract for Grants agree, in addition to any other nondiscrimination provision of the MCG and at no additional cost to the DEC, to fully comply and cooperate with the DEC in the implementation of New York State Executive Law Article 15-A. These requirements include equal employment opportunities for minority group members and women ("EEO") and contracting opportunities for certified minority and women-owned business enterprises ("MWBEs"). Contractor's demonstration of "good faith efforts" pursuant to 5 NYCRR §142.8 shall be a part of these requirements. These provisions shall be deemed supplementary to, and not in lieu of, the nondiscrimination provisions required by New York State Executive Law Article 15 (the "Human Rights Law") or other applicable federal, state or local laws.
- Failure to comply with M/WBE and EEO requirements may result in a DEC finding of non-responsiveness, non-responsibility and/or a breach of contract, leading to the withholding of funds or such other actions, liquidated damages or enforcement proceedings.
- Please refer to the NYS Master Contract for Grants - Article IV.(J) and Attachment A-1 Program Specific Terms and Conditions - Article X, to review M/WBE and EEO requirements. Required M/WBE and EEO related forms can be found at <http://www.dec.ny.gov/about/48854.html>
- The local government is responsible for designating someone to serve as their Affirmative Action representative. The governing body should make this designation through official means.
- A list of certified M/WBE enterprises can be obtained via the Internet from the NYS DEC of Economic Development at <https://ny.newnycontracts.com/FrontEnd/VendorSearchPublic.asp?TN=ny&XID=9885>
- Contracts which meet the established M/WBE-EEO thresholds require the contractor to submit quarterly reports, [http://www.dec.ny.gov/docs/administration\\_pdf/quarterly.pdf](http://www.dec.ny.gov/docs/administration_pdf/quarterly.pdf), detailing payments made by the prime contractor to NYS certified M/WBEs.
- The following M/WBE-EEO "Fair Share" goals are established as follows:

### **Minority and Women Owned Business Enterprise (MWBE) Overall Participation Goals:**

Construction/Engineering – 30%  
Commodities – 30%  
Services/Technologies – 30%

### **Equal Employment Opportunity (EEO) Participation Goals:**

EEO Minority Workforce Participation Goals (DEC Regions 1- 9) 10%  
EEO Female Workforce Participation Goals (DEC Regions 1-9) 10%

Fax: (518) 402-9023

### **Procurement of Contractors and Sub-contractors**

Not-for-profit corporations must follow procurement policies that ensure prudent and economical use of public money. Failure to comply with these requirements could jeopardize full reimbursement of your approved eligible project costs.

### **EJ Program Contact Information**

For more information about the Environmental Justice Community Impact Grant Program, contact the Office of Environmental Justice at:

DEC Office of Environmental Justice  
625 Broadway, 14th Floor  
Albany, New York 12233-1500  
Telephone: 518- 402-8556  
Toll free: 1-866-229-0497  
E-mail: [justice@dec.ny.gov](mailto:justice@dec.ny.gov)

## **IV. EJ GRANT PROGRAM PAYMENT AND REPORTING REQUIREMENTS**

In accordance with state contracting requirements, DEC will make all payments of grant contract funding by electronic transfer. Grant recipients (Grantee) will be required to set-up an electronic payment authorization with the Office of the State Comptroller at: <http://www.osc.state.ny.us/epay/index.htm>

This is a scheduled payment grant program. Upon DEC's full approval of a MCG (awards above \$10,000 and below \$50,000) or LOA (awards \$10,000 and below) funding may be advanced to the Grantee in the following increments:

1. **Advance Payments**: An initial advance payment, followed by subsequent quarterly advance payment requests, shall not at any time exceed a total of 30 percent of the grant award amount. Quarterly advance payment requests shall be made on a calendar quarter and are subject to DEC's review and approval of the work the Grantee expects to implement with the advance payment. After the first advance payment subsequent advances shall not be made until at least 15 percent of the previous advance is shown as expended and is documented to the DEC. Future payment requests will be reduced until all advance amounts are fully recovered within the contract term.
2. **Quarterly Expenditure Reports**: The Grantee shall provide quarterly expenditure reports, by object of the expense, supported by copies of cost documentation (paid invoices, receipts, cancelled checks, etc...) that shall be audited and approved by the DEC. Quarterly expenditure reports shall be provided by the Grantee within 30 days from the end of each calendar quarter.
3. **Quarterly Progress Reports**: The Grantee shall complete in the Grants Gateway quarterly progress reports no later than 30 days from the end of each calendar quarter. Progress reports shall summarize how the project progressed towards meeting the contract work plan objectives, tasks and performance measures.
4. **Final Payment and Report**: The final payment will be provided on a reimbursement basis. The Grantee shall submit a final report which shall be approved by the DEC prior to the release of the final ten percent reimbursement payment.

The Grantee shall submit a final report no later than 60 days after the end of the contract term or upon completion of the project. The final report shall report on all aspects of the program and detail how the use of grant funds were utilized in achieving the goals set forth in the contract project work plan. If applicable to the project, copies of appropriate documents - i.e. inventory and/or management plan shall approved by the DEC. 5. A DEC on-site inspection may be required for DEC to confirm that all work was completed in accordance to the approved project work plan.

## **V. APPLICATION EVALUATION AND SCORING STANDARDS**

Applicants who submit applications by the due date will first receive an “eligibility” and “completeness” pass/fail review. If the application receives a single ‘fail’ response in the eligibility review, the application will be disqualified from further technical review. If the application meets all eligibility pass/fail criteria, it will receive further technical evaluation and scoring by at least three members of a review team. Technical evaluation criteria is in accordance with the general evaluation criteria described in this RFA. The total maximum score any application may receive is 100 points. The DEC reserves the right to not award funding to applications scoring less than 70 points.

In an effort to distribute available funding across the state, and in the best interest of the state, DEC reserves the right to determine the best selection of applications for project funding in the following way:

Individual technical reviewer scores will be averaged for each application to determine an average score. Regional Economic Development and cost effectiveness points will be added to the average score to determine the final score of the application. Final scores will be ranked from highest to lowest and applicants having the highest final scores will be selected to receive grant funding.

DEC reserves the right to ensure that no single part of the state receives a disproportionate share of the total amount of available EJ grant funding. If the total number of applications ranked high enough within any single DEC region receives at least 60 percent of the total amount of available funding during the scoring and funding decision process, DEC will not fund the remaining applications ranked within the region. Remaining awards will be determined based on the highest to lowest ranked applications from other DEC regions (See list of regions here: <http://www.dec.ny.gov/about/50230.html>)

**Tie Breaker:** If there is a numerical tie in the ranking of multiple applications and there are insufficient funds to award grants to all of the tied applications, DEC will select the application having the earliest application electronic submission date and time.

### **PASS/FAIL EVALUATION CRITERIA:**

An eligible application for a Community Impact Grant must satisfy all of the following Pass/Fail criteria. A “Fail” to any of the following criteria will disqualify the application.

- Application Completeness: The applicant must answer all mandatory Grants Gateway program questions and upload all mandatory and applicable documents. All document uploads must be complete and viewable. Did the applicant upload all necessary documents and complete all required information? **(pass/fail)**
- Applicant Prequalification: Not For Profit 501(c)(3) (NFP) organizations must be prequalified in the Grants Gateway by the EJ grant opportunity due date to be considered eligible, including a NFP who will serve as the eligible community-based organization’s fiscal sponsor. Was the NFP applicant prequalified in the Grants Gateway by the application due date? **(pass/fail)**

- Fiscal Sponsor Agreement: A NFP fiscal sponsor is responsible for submitting the EJ application on behalf of the eligible community-based organization. The NFP sponsor must have their own Grants Gateway registration and document vault prequalification and must have uploaded a signed fiscal sponsor agreement with the eligible community-based organization. Did the applicant provide, if applicable, a fiscal sponsor agreement? **(pass/fail)**
- Proofs of Land Ownership and/or Access Agreements: The applicant must either own the property, have obtained a formal written agreement from the property owner to access the project site, or have obtained a municipal endorsement to conduct the project on municipal property. Did the applicant provide the necessary land ownership permissions/endorsement? **(pass/fail)**
  - The applicant must provide proof of land ownership and/or applicable landowner permission and/or municipal endorsement. Applicable proofs of land ownership are required to be in place and uploaded (in a single PDF file) in the Grants Gateway at the time of application. Acceptable proofs of land ownership information or permissions include:
    - If the property is owned by the applicant – a copy of the current deed.
    - If the property is not owned by the applicant – a formal written agreement between the applicant and landowner which allows the applicant access to the property, and represent the landowner, to accomplish the proposed project.
    - If the applicant is a not-for-profit proposing a project on municipal property - a signed Municipal Endorsement. A municipal endorsement provides authorization for the not-for-profit to conduct the proposed project on municipal property. A sample municipal endorsement can be downloaded and viewed in the Pre-submission Upload section in the Grants Gateway.
- Does the community-based organization meet all of the following eligibility criteria? **(pass/fail)**
  - a) serve the residents of an area equal to or small than a town or city outside of NYC, or an area equal to or smaller than one of the five boroughs within NYC; and
  - b) has a total annual revenue that does not exceed \$3 million based on the applicant's IRS Form 990 filing from the previous year; and
  - c) cannot have its charter revoked or otherwise be dissolved through the action of another organization; and
  - d) is able to enter into legal agreements independent of any affiliated NFP organization, government body, university, or other entity that would be ineligible to apply for this grant; and
  - e) address exposure to environmental and/or public health problems of the residents of the community impacted by the multiple environmental harms and risks that are the focus of the project ("the affected community"); and
  - f) has its primary office located in the affected community; and
  - g) has more than 50 percent of its members residing in the affected community, or more than 50 percent of the people served by the applicant community group residing in the affected community (A NFP serving as a fiscal sponsor is not required to have members in the affected community.); and

h) has the community-based organization declared that it has not caused or contributed to the environmental harms or risks that are to be the subject of the proposed project? **(Note: A declaration must be signed and uploaded back into the Grants Gateway.)**

- Research Component: Does the project include a research component that will expand the community residents' knowledge or understanding of the affected community about the multiple environmental harms and risks? **(pass/fail)**
- Community Demographics: Does the project serve an environmental justice community as defined in DEC Commissioner Policy 29, Environmental Justice and Permitting? **(pass/fail)**

#### **TECHNICAL EVALUATION CRITERIA (A maximum of 100 points)**

DEC will award projects up to 100 points based on the following criteria:

##### **1. Letters of Support (0-5 points):**

The application includes a letter of support from another organization, official or institution.....5 Points  
(Each letter will receive one point for a maximum of 5 points)

##### **2. Public Health (12 points):**

DEC will review and assess how proposed projects examine and/or address public health concerns of the residents of the affected community:

a) the primary focus of the project is on public health, and the project is likely to provide substantial health benefits such as reducing asthma or obesity rates, improving nutrition, preventing childhood lead exposure, or other health benefits .....12 points

b) If the project focus is not on improving public health but the project is likely to provide substantial public health benefits, or the project focuses on public health but the benefits are not well described.....6 points

c) The project will provide some health information to the community but is not likely to provide health benefits to residents, or minimal public health benefits are implied but not described in the application.....1 point

d) The project does not address public health in any way..... 0 points

##### **3. Environmental benefits (16 points):**

DEC will review and assess proposed projects regarding the potential environmental benefits to the community as a result of the project:

a) The project is likely to result in substantial improvements to the environmental conditions of the affected community.....16 points

b) The project will provide community members with information about environmental hazards but is not likely to result in significant improvements to environmental conditions.....8 points

c) The environmental information or benefits that the project will provide to the community only appear to be minor, or the environmental benefits are implied but not described in the application,.....0 points

##### **Project Effectiveness (0 - 30 points):**

**4. Knowledge and /or Skills:** Does the applicant demonstrate the knowledge and skills and/or track record to successfully undertake a project of this nature?

- a) Very well qualified and/or proven track record for this type of project..... 15 Points
- b) Qualified and /or satisfactory track record .....7 Points
- c) Project methods are not described in detail to determine their potential effectiveness, not well qualified and/or poor track record ..... 0 Points

**5. Goals and Objectives:** Does the project have clear goals and objectives that can be achieved within the proposed project time frame?

- a) The project's goals and objectives are clearly defined and the applicant appears to have the capability and expertise to achieve the project within the proposed time frame and with other sources of funding described in the budget .....15 Points
- b) The project's goals and objectives are not clearly defined but seem reasonable, or the applicant appears to be able to achieve most but not all of the goals and objectives from this grant and other sources of funding described in the project budget.....7 Points
- c) The project does not have reasonably achievable goals and objectives, or the applicant does not appear to have the capability or expertise to accomplish at least half of the project's goals.....0 Points

**6. Regional Economic Development Benefit (5 points):**

Has the applicant demonstrated the project implements part of a Regional Economic Development Council (REDC) Plan and has the necessary supporting REDC application information been provided?.....5 Points

**8. Cost Effectiveness (32 points):**

DEC will review and assess proposed projects based upon the cost effective nature of the proposal. Proposed projects with clearly written budgets that are deemed cost effective will be receive higher points. How well does the budget demonstrate value for cost? Cost effectiveness will be evaluated from the standpoint of both cost and value. Applicants may compare the project costs to other similar work and explain the balance of expenses across proposed expenditure budget categories. To sufficiently respond to this question, applicants are encouraged to upload documentation to support specific budget items, such as standard government wage rates, current market prices for equipment and cost-estimates from potential contractors.

- a) Budget is well-balanced, does not contain any extraneous expenses and supports objectives, tasks and performance measures identified in the project work plan .....8 Points
- b) Applicant provided more than one quote from vendors/contractors for the work to be completed, and the lowest cost estimate was used for the application.....8 Points
- c) Cost to benefit ratio is appropriate for the complexity and size of the project.....8 Points
- d) Anticipated benefits are at a scale and cost equivalent to the fair market value of the proposed budget.....8 Points.
- e) Budget is not cost-effective, is confusing, extraneous, excessive or not well aligned with the project purpose..0 Points

### **Declaration (Mandatory Upload)**

**The undersigned, as an authorized official of the not-for-profit corporation, does hereby certify that:**

- The community group has more than 50 percent of its members residing in the affected community, or more than 50 percent of the people served by the applicant community group reside in the affected community.
- The community group (and partner not-for-profit corporation, if applicable) has not caused or contributed to the harms or risks relating to the project proposed in this application.

The individual whose signature appears hereon is an authorized official of the applicant community group or partner not-for-profit corporation, if applicable and has been authorized to submit this application for the applicant community group or partner not-for-profit corporation by such organization's executive board or board of directors.
