### **2. Q: We are interested in proposing a project in line with objective 2 of the baseline planning program section. In doing so are all three of the tasks required? More specifically can we do task 1 and 2, but not task 3 (implementation task)?**

A: The RFA states that only task 2 is required to be included if objective 2 is selected, so it would be acceptable to do tasks 1 and 2 without including task 3.

### **3. Q: Does the Performance Measure Data Type selected in the application impact how this data must be reported if awarded?**

A: Selections made during the application phase will not affect the data type required for progress reports under contract, as the data type selected in the application could be changed later at the contract development level.
